EXPERIMENT AT THE NORMAL TO BE CONTINUED

Transfer of Management of Shelby School to Normal Authorities Is Success

CHILDREN ARE BENEFITED

Efficiency of Country School Teacher Is Broadened by the New Plan

EXPERIENCE IS PRACTICAL

President F. A. Cotton Is Largely Responsible for New Policy of Board of Regents

Without doubt one of the greatest things that have been done for the betterment of country school education is being tried out in La Crosse county under the direction of the country school department of the La Crosse state normal school. At a recent meeting of the board of normal school regents held at Madison, it was decided to perform the experiment simultaneously in three cities of the state which were the seats of normal schools. Oshkosh and Whitewater were the other two places selected by the regents and the success of the innovation has been so pronounced during the few months of its existence that it will be continued with more improvements next year.

An agreement was entered into between the school board of the township of Shelby and the normal school authorities providing for the transfer of the management of the Shelby school located just outside the city limits near Market street, to the country school division of the normal under the immediate direction of Prof. Joel R. Moore. Under the agreement, the school will be used by the country school students of the normal as a practice department such as the other regular courses have in the normal model school.

Cotton Father of Idea

It is interesting to note that the first attempt of this kind for increasing the efficiency of the country school teacher was made in Terre Haute, Indiana, under the supervision of President F. A. Cotton of the local institution, when he was State Superintendent of Education, and it is largely through his efforts that the system was introduced into this state.

The Shelby school has about twenty-five pupils who come all the year round and with Miss Margaret Forbes as instructor, have done excellent work and when it was used as a model classroom Miss Forbes was retained as an assistant to Professor Moore. Because of the affiliation with the normal the Shelby pupils have advantages and innovations which children from farms have scarcely ever dreamed of having until they got as far as high school, perhaps. Everything that the model school children at eighteenth and State streets enjoy will be used by all the country children.

Manual training courses have been arranged for them, sewing and cooking classes for the girls and even the May-pole dances and other festivities accompanying the graduating exercises at the normal school will be partaken of by many little country lads and lasses who are making periodical trips to the big institution for instruction.

Practical Experience

All those who are enrolled in the country school course at the normal are now compelled to write out the customary lesson plan and teach a prescribed class under the eyes of Prof. Moore or Miss Forbes. Students who visit the practice school for the purpose of observing are an invaluable help to the pupils who are not reciting as they assist them at times when the teacher is busy and cannot attend to them. In this way much individual attention is given and the regularity of attendance at the little white school is surely a symbol of appreciation of the efforts spent. The parents are also very enthusiastic over the action of the regents whereby their children have such facilities offered them for their education.

The country school is surely a vital element in the uplifting of rural communities and through the turning out of better equipped teachers by the normal schools, it will be put on a higher plan than it has ever enjoyed before the history of rural education.

COMPLETE DARROW JURY

LOS ANGELES, Cal., May 22.—The jury which will try Clarence S. Darrow on charge of bribery was completed at 11:10 a. m., when both sides accepted John L. Dingman as the twelfth juror and he was sworn in. Dingman is a ranchman living near Monrovia.

Alleged Black Hand Aristocrat On Trial

PITTSBURG, May 22.—Charged with attempting to extort $5,000 from Alexander R. Peacock, multi-millionaire, and former partner of Andrew Carnegie, William Pastorius, German scholar and dandy and alleged "aristocrat of the black hand," was placed on trial here today.

Pastorius is charged with having mailed threats to murder every one of the Peacock family and to demolish the palatial Peacock residence with explosives in case of a refusal to comply with his demands.

Pastorius was not represented by counsel and asked a postponement of his trial because he had not been permitted by the Allegheny county jail guards to communicate with Herr von Bernstorff, the German ambassador at Washington.

Warden Lewis of the jail denied that Pastorius had been restricted in his efforts to communicate with friends outside the jail, and the trial was ordered continued.

BOLAND CHARGES MOSTLY HEARSAY

Scranton Coal Operator Makes Allegations Against Archbald on Reports

HE INVOLVES OTHER JUDGES

Boland's Testimony Today Drags Two More Commerce Justices Into Scandal

WASHINGTON, May 22.—Charges besmirching Judge Robert W. Archbald of the commerce court, but based almost entirely on what other persons had told him, were made today in the impeachment investigation of the house judiciary committee by William P. Boland, Scranton coal operator, who filed the charges against Archbald.

Railroad officials, two other commerce court judges and numerous individuals were involved by Boland in the alleged judicial scandal. But his testimony was "hearsay" almost wholly. He gave few facts upon his own personal knowledge, but alleged Archbald was the prime mover in a railroad "conspiracy" to crush him in business.

"I was fully convinced that Archbald was a tool of the railroads," Boland declared. He said that Geo. Watson of Scranton, told him that Archbald could get two other commerce court judges to "come in" with him to decide Boland's case, now before the interstate commerce commission.

That Archbald, at the request of Lackawanna railroad officials induced Federal Judge Wilner of Scranton, to make an adverse decree against him, in a law suit, was also alleged by Watson, Boland declared.

Standard Oil Unable to Control Through Stock; Alleges Mismanagement in Suit

ST. LOUIS, Mo., May 22.—Being restrained from voting pooled stock to oust H. Clark Pierce and his representatives from the Waters-Pierce Oil company, directorate, the Standard Oil interests have taken a new tack and today the United States district court is asked to oust Pierce. The suit is brought in the name of Henry M. Tilford, New York associate of John D. Rockefeller, and John D. Archbald and is directed against H. Clary Pierce, Clary Arthur Pierce, Andrew M. Findlay and two other Pierce representative on the board.

It alleges mismanagement and asks for a sweeping order of the court, which shall decree the defendant officers guilty of an abuse of their trust, and remove them.

LA CROSSE COUPLE WED AT HAMMOND

HAMMOND, Ind., May 22. — Frank H. Lasuer and Lottie Goodyear, La Crosse, Wis., were married before Judge Prest yesterday. The couple had a difficult time getting to Hammond, where they were informed that they must journey to Crown Point to secure the necessary papers. This they did and returned here to have the knot tied.

THOMPSON URGED TO BE CANDIDATE

Effort Made at the County Board Meeting to Force District Attorney Into Race Again

HE REITERATES HIS REFUSAL

County Solons Appoint a Committee to Prepare for the Annual Picnic

That nothing less than tearful pleadings of a committee of governors will change the decision of District Attorney James Thompson, not to become a candidate for re-election, is evident from his refusal to comply with the request of the county board.

A fruitless effort was made at the meeting of the county board to "smoke" Thompson in the 1912 race but he emphatically declared that when he ran for office at the last election he said that he would not be a candidate again if elected and that he will not go back on his declaration.

Following his refusal the following resolution was unanimously adopted by the board:

Thompson is Commended

"Whereas, the county board of supervisors realizes the importance of district attorney and its relationship to the legal and business affairs of the county and the circuit court, and whereas the present incumbent of the office, James Thompson, has fulfilled the duties of the office to the satisfaction of this board, to the court and to the public; and whereas, in the performance of his official duties, Mr. Thompson has been ever mindful of his responsibility to the public, to the law and its demands as the public prosecutor and officer of the courts, and in his capacity as legal advisor of this board he has always been prompt, reliable and courteous

"Therefore, be it resolved by the county board of supervisors of La Crosse county that we commend Mr. Thompson for the able performance of his official duties, the courtesy that he has extended to this board individually and as an official body, and we further endorse and commend him for the ability and energy with which he has characterized the performance of his duties as public prosecutor and as an officer of the courts and of the county and we regret his determination not to be a candidate for re-election."

Arrange for Picnic

The May session of the county board meeting was brought to a close late yesterday afternoon with the adoption of a resolution to appoint an arrangement committee to prepare for the annual county picnic.

The special committee appointed to make a tour of the state and to examine the new uniform county system of bookkeeping advocated by the tax commission, submitted a report recommending that the new system should not be adopted by La Crosse county at the present time. This report was adopted.

The committee inspected the system of Racine county and later interviewed State Statistician A. E. James of Madison in regard to the new system. They declare in their report that they find that there are several new laws which should be passed before the new system is adopted.

The committee on roads and bridges to whom the notice of the citizens of the Town of Holland was referred submitted their report in which they declared that this matter is entirely in the hands of the county clerk and the chairman of the county board.

Animals for the Farm School

Supervisor Val S. Kepple introduced a resolution calling for an appropriation of $2,000 to be used to purchase ten cows, two hogs, a team of horses and farm implements for the La Crosse County agricultural school at the meeting of the county board late yesterday afternoon. Professor Frank Balmer of the school gave a short talk on the necessity of this addition to the school and said that the stock could be made to pay for itself. The resolution was referred to the committee on ways and means and finance.

The following reports were adopted: The report of the road and bridge committee on the purchase of a $1,000 automobile for the county highway commissioner; report of the committee on ways and means and grounds and buildings relative to referring a report on court house improvements back to the committee; report of special committee appointed to select a site for the tuberculosis sanatorium had the referendum vote been favorable to the project; reports of special committees on road improvement in the towns of Hamilton, Campbell, Barre and Farmington; report of committee on claims.

A resolution calling for an appropriation of $100 for flowers and shrubbery for the court house grounds was referred to the committee on ways and means and a resolution introduced asking that an amount be appropriated to sustain the expense of cutting a window in

REFUSE TO AID DRESBACH AND DAKOTA PEOPLE

War Department Turns Down Plea for Restoration of Old Minnesota Channel

EXPENDITURE WAS IMMENSE

Say New and Deep Channel Cost Too Much to Abandon at This Time

CLAIM IT SIX FEET DEEP

Keller's Report Calculated to Create a Smile Among Those Who Know the River

The War Department has turned down the plea of Dresbach and Dakota for relief from government improvements which they allege have deprived them of access to the river and have created unsanitary conditions.

In his report to the department Major Charles Keller declares that he has ordered a dredge to do work on the bar at Dresbach which will relieve the objections as to the sanitary aspect of the trouble, but IT WAS THE PARTICULAR DREDGE WHOSE WORK CREATED THE MOST RECENT PROTEST, ON THE GROUND THAT IT BARRED THE PHYSICAL RELIEF DEMANDED.

Real Relief Denied

In conclusion, the report declines to give the relief asked for, namely the removal of the Dresbach island and closing dam and the restoration of the channel to the Minnesota side.

That "Six-Foot" Channel

As ground for doing this the report states that the change of channel has been secured at a cost of approximately $200,000, and that it has resulted in the establishment of a continuous six-foot channel from Dakota to La Crosse, a statement that every launch owner knows is not true.

Esch Reports Action

The report was forwarded to The Tribune by Hon. John J. Esch to whom the appeal of the villages came. Appeals were also made to Congressman Sydney Anderson of the First Minnesota district and to Senator Knute Nelson of Minnesota. The report is signed by General Bixby, chief of engineers. It is as follows:

The Report

"This matter has had consideration by the district officer, Maj. Chas. Keller, Corps of Engineers, and attention is invited to his report on the subject in the accompanying letter dated March 1, 1912.

"Summarizing the facts given by the district officer, it may be stated that the claims made by the petitioners, so far as they relate to the landings and insanitary conditions, are justifiable to some extent, and although not directly attributable to the work done by the government, are such as to warrant certain relief measures. As soon, therefore, as a dredge becomes available, he proposes to fill up the low places in the bar at Dakota with material to be dredged from the channel and to deposit much material along the shore contiguous to the boat landing which, in his opinion, will give a much easier and better landing than has been there in 35 years. He proposes also to place dredged material at the boat landing at Dresbach and provide an adequate steamboat landing there, the work to be undertaken at an early date.

"With reference to the criticism of the methods employed for general improvement of the river in the vicinity, it appears that such criticism is directed toward such portion of the work as involved the closing of Dresbach Slough, just below Dresvach, with the maintenance of the through channel toward the opposite side of the river, and that what is now desired is the diversion of the channel so as to pass it through said slough, but it is shown by Major Keller's report that the improvement was made along the natural trend of the channel at the time the work was begun; that this is one of the most successful improvements on the river; and that the course of the channel as now regulated is eminently satisfactory to navigators who now find in place of a shallow and very obstructed channel, affording at low water only three feet or even less at three localities, a broad and deep channel of more than six feet at low water throughout this section. Also that the removal of the dams and diversion of the channel through Dresbach Slough would mean the abandonment of approximately $200,000 worth of successful work and involve perhaps as much additional expense and many years' time in bringing about the desired results which would be of problematical value.

"I concur in the opinion of Major

WATER PRESSURE NEVER TOO LOW

Fire Chief Bradfield Tells Legislator Committee Fire Protection Is Good

SUPPLY SCANT SOMETIMES

Says During Sprinkling Season Pressure Is Not Up to Standard at All Times

Fire Chief Nathan Bradfield when questioned by Assemblyman H. J. Martinson before the legislative examining committee this morning, relative to the fire protection of the city, declared that during his services on the fire department he has never experienced trouble due to lack of water pressure. He admitted, however, that there have been times during the sprinkling season when the pressure was not up to standard but that whenever there was a fire they always had sufficient pressure.

He also testified in regard to gas and electrical connections and said that as far as he knew there are no connections or devices on the outside of the buildings where the gas or electric current can be turned off but that this can be arranged in case of a bad fire by having the current turned off at the plant.

He recommended the compulsory examination of buildings in the business section of the city by memberst of the fire department at least twice a month and said that he has done this as near as possible for some time. Firemen are also sent out to visit the different buildings with a view of becoming acquainted with the fire escapes, stairways, elevators and wiring of buildings, so that they will be familiar with the lay of the ground in case of fire.

E. R. Burke and W. J. Hickisch, local fire insurance agents, both testified this morning relative to rate making and declared that the reasons for not adopting the reduction by the Wisconsin inspection bureau is the poor water efficiency.

Says Rates are Too High

Will Ott, president of the Segelke & Kohlhaus Manufacturing company, in testifying before the committee yesterday, protested that fire insurance rates are too high in this city. In corroboration of his statement he declared that ten years ago his company was forced to pay a rate of $2.75 and after the installation of the sprinkler system it was reduced to $1.00. Continuing their demand for a lower rate his company obtained a reduction to 75 cents, then to 60 cents, to 50 cents and finally to 30 cents, the rate they are paying at present. He blamed the local board for the high rates, declaring that outside companies would insure on the same risks for much less.

Mr. Ott advocated the abolishment of the board and the fixing of insurance rates by the state of some other outside agency. He said that his company paid a rate of 4½ cents before their plant burned down in 1908. Mr. Ott declared that the fire department did all that could be expected at the fire. He testified that as far as he knew there had been no trouble over the adjustment of losses in the city.

TRY TO WRECK TRAIN

MYRTLE, Miss., May 22.—Posses are today in pursuit of three men who attempted to wreck the 'Frisco limited near here last night. Two of tthe men are believed to be the bandits who recently held up and robbed the Queen & Crescent train near Hattiesburg. A pile of ties was placed on the track shortly before the 'Frisco passenger train was due. The limited was late, however, and a freight train, running ahead, ran into the obstruction.

STEALS CLOTHING.

A tramp was arrested this morning, charged with the theft of a bundle of clothes from George Martell, a North side lad. According to the tale of the child, who identified the man arrested, he was returning to his home Monday night with a bundle of clothes for his mother to wash, when two men grabbed the clothes and departed.

QUINN CASE STARTS

CHICAGO, May 22.—The case of Mrs. Jane Quinn, accused of the murder of her husband, John Quinn, was called in criminal court this afternoon and Attorney J. Hamilton Lewis, representing the accused woman, said the case would be hastened to a conclusion.

AMERICANS IMPRISONED

EAGLE PASS, Texas, May 22.—American refugees arriving here today from the interior of the state of Durango report that a force of 2,000 rebels is menacing about fifty foreigners who are bottled up in the town of Valardena. Most of them are Americans.

LIGHTNING STRIKES HOSPITAL

GREEN BAY, Wis., May 22.—Several patients at St. Mary's hospital are in serious condition from shock today from a panic yesterday when lightning struck the institution and caused a fire loss of $2,000.

Gives Her Diamond To Finance Campaign

CHICAGO, May 22.—Her diamond ring in a pile of cash and slips of papers pledging money for the coming fight for votes in Ohio, Mrs. Mary Safford, president of the Iowa Suffragists, stood before the delegates to the Mississippi Suffrage conference today and was loudly applauded. There was $225 in cash and pledges on the table, when Mrs. Safford, who had already pledged $25, said: "We need more money than that to win votes in Ohio."

Taking her diamond ring (estimated by the delegates worth $100) from her finger she placed it on top the cash and subscriptions. When the applause subsided enough for the announcement to be made, it was stated from the platform that a total of $300 and one diamond ring was on hand for the Ohio fight.

NATIONAL FREIGHT STRIKE IS CALLED

Announcement at Noon that Union Freight Handlers are Called Out

GROWTH OF CHICAGO TROUBLE

Was Predicted Last Week when Roads Refused to Make Terms with Strikers

CHICAGO, May 22.—Announcement was made today at the headquarters of the freight handlers' union in this city, that all the union freight handlers in the United States were called out on strike at noon. The number was given as between 15,000 and 20,000.

The nation-wide strike of freight handlers was predicted last week by International President Flannery, when a failure to reach an agreement between the union and the twenty-four railroads entering Chicago was certain. The men here demanded that their new contract provide for a minimum wage of 25 cents an hour extra pay for working on holidays and Saturday afternoon holidays with pay. Clerks who are striking with them demanded an increase of $5 a month.

The railroad managers refused to meet these demands and Chairman Garret of the railroad managers' organization said that the men's places would be filled and that the railroads would not treat with the unions.

REFORM SWEEPS DENVER

DENVER, Colo., May 22.—Practically complete returns received early today from yesterday's municipal election show that the Citizen's Reform ticket, headed by Henry J. Arnold for mayor, and Judge Ben Lindsey for juvenile judge, has swept the city electing every candidate by overwhelming pluralities.

HOLD FUNERAL OF RICHESON

Pastor Murderer Is Buried with Quiet Ceremony From Baptist Church

BOSTON, Mass., May 22.—With only Attorney William A. Morse, Miss L. V. Richeson, Douglas Richeson and reporters present, the funeral services over the body of Rev. Clarence V. T. Richeson, executed at the Charlestown prison, early Tuesday for the murder of Avis Linnell, were held this afternoon at 1:30 o'clock in the Warren Avenue Baptist church. Rev. Herbert S. Johnson, who attended Richeson in the death cell and later in the death chamber, officiated at this final scene of the tragedy. It was announced that Richeson's body would be buried in or near Boston, the exact place being kept secret until the driver of the hearse was informed where he was to take it, immediately after the services.

U. S. TROOPS TO FOLLOW FIGHT

FABENS, Texas, May 22.—With a battle imminent today between Mexican federals and rebels a short distance from the American line, Colonel E. Z. Steever, commanding the department of Texas, today ordered United States troops to follow the fight all along the border and prevent all firing or flight into American territory.

TAFT LOSES HIS HOME STATE TO COL. ROOSEVELT

Ex-President Has at Least 32 Delegates Out of 42 in the Buckeye State

CLAIMS BIG SIX FOR T. R.

Roosevelt Manager Says Teddy Will Control State Convention's Choice

HARMON HAS LEAD ON WILSON

Governor Has Majority in Preferential Vote, but Wilson Will Have Delegates

COLUMBUS, Ohio, May 22.—Returns which were still incomplete early this afternoon confirm the early reports of a Roosevelt landslide in Ohio. They indicate the colonel will have at least 31 of the 42 delegates in the state.

In the democratic presidential preference contest the latest returns increase Governor Harmon's lead over Governor Wilson of New Jersey.

In 1,851 precincts out of 5,163 in the entire state, Harmon has 43,755 to 34,178 for Wilson. Harmon headquarters this afternoon still claimed the election of national delegates in all districts of the state except two, but as the more complete returns piled in it was indicated that Wilson candidates had been successful in seven districts out of the 21. In two other districts, also, the Wilson managers claimed that the delegates elected are favorable to Wilson's candidacy. In one other district, the Wilsonites claimed the election of one of the two delegates. On this basis the New Jersey governor has elected 19 delegates.

Returns by districts, available this afternoon, indicate the election of Roosevelt delegates in the Fifth, Sixth, Eighth, Ninth, Tenth, Eleventh, Twelfth, Fourteenth, Sixteenth, Seventeenth, Eighteenth, Nineteenth, Twentieth and Twenty-first districts, and show that the colonel broke even with President Taft in the Third, Fourth and Fifteenth districts. In these, each candidate elected one delegate.

With Col. Roosevelt and Governor Harmon the winners in yesterday's Ohio primaries, interest today centered in the final returns which will show the exact extent of their victories.

Roosevelt managers today would not concede that Taft had carried more than three districts—the First, Second and Third—but the chances are the president will get one and possibly two more. This would give Roosevelt a minimum of thirty-two and Taft a maximum of ten district delegates.

Harmon carried the state in the presidential preference vote by a plurality roughly estimated at 15,000 over Governor Wilson of New Jersey, but the latter appears to have captured a number of district

BEAUTIFUL HAIR AT SMALL COST

A Simple Remedy Beautifies the Hair, Cures Dandruff, Stops Falling Hair

What a pity it is to see so many people with thin, wispy hair, faded or streaked with gray, and realize that most of these people might have soft, glossy, abundant hair of beautiful color and lustre if they would but use the proper treatment. There is no necessity for gray hair under sixty-five years of age, and there is no excuse for anyone, young or old, having thin, straggling hair, either full of dandruff or heavy and rank smelling with excessive oil.

You can bring back the natural color of your hair in a few days and forever rid yourself of any dandruff and loose hairs, and make your hair grow strong and beautiful by using Wyeth's Sage and Sulphur Hair Remedy. For generations common garden Sage has been used for restoring and preserving the color of the hair; and Sulphur is recognized by Scalp Specialists as being excellent for treatment of hair and scalp troubles.

If you are troubled with dandruff or itching scalp, or if your hair is losing its color or coming out, get a fifty cent bottle of Wyeth's Sage and Sulphur from your druggist, and notice the improvement in the appearance of your hair after a few days treatment.

SNATCHED PURSE TO FEED HIS FAMILY

ST. LOUIS, Mo., May 22.—The identity of the man who held up Miss Rose Schley yesterday as she was entering a bank, snatched $295 from her hand and fled, was established today when a woman, with three children clinging to her appealed to the police to aid her in getting something to eat. She also asked to see the robber arrested yesterday and broke down and wept when she saw it was her husband. The woman gave her name as Mrs. Elizabeth Shields. She said none of the family had had anything to eat since Sunday and that her husband left yesterday saying he would not return home until he had secured food. The police took up a collection to buy food for Mrs. Shields and steps will be taken to care for the family pending action in the robbery case. Shields is now in the hospital wounded. He was shot in the neck while trying to escape.

STOCKTON IS AFTER B. OF L. E. MEETING

HARRISBURG, Pa., May 22.—Stockton, Cal., is making a strong bid for the next international convention of the Brotherhood of Locomotive Engineers in 1915. Next to Stockton, Salt Lake City appears to be making the strongest appeal with Cleveland, Atlantic City and Oklahoma City in the order named. Warren S. Stone will probably be re-elected grand chief engineer.

VETERANS PLAN FINAL PROGRAM

This Year's Memorial Services Last Under Active Management of Civil War Men

WILL DECORATE THE GRAVES

Veneration for Nation's Dead to Be Shown in Patriotic Co-operation of Citizens

After several weeks of untiring devotion to the work of arranging a suitable program for the Memorial day exercises, which will be held in La Crosse May 30, the committee announced today that everything is in readiness for the last tribute to the nation's dead, which will be given under the active management of the local veterans of the civil war. The burden of arranging the services in honor of those who shed their blood for their country is fast becoming too heavy for the rapidly decreasing group of veterans who have so ably carried on affairs of this kind since the close of the great rebellion, and after this year will be taken up by younger shoulders.

In the hope that the people of La Crosse will do everything in their power to make the day truly memorial and sacred, and will show their patriotism in veneration for those who sacrificed their lives and fortunes in the defense of a great principle, the committee urges the hearty co-operation of every citizen of the city in the exercises of the day.

The program as arranged is announced by Edward Cronon, chairman of the committee, as follows:

Sunday Services.

On Sunday morning, May 26, 10 o'clock, the G. A. R. posts, together with the S. W. V., S. of V and W. R. C., will meet at the court house, and march to the English Lutheran church on West avenue south, to attend Memorial services, upon invitation of Rev. W. P. Christy, pastor of the church. The services at the church will commence at 10:45.

It is to be hoped that all will attend this service. The pastor has been a soldier and this should be an inducement for all to attend, and show our appreciation for his invitation. Let us all be there without fail.

Emily Officer of the Day.

Comrade W. H. Emily will act as officer of the day.

The committees having charge of the placing of flags upon the graves in the cemeteries, will meet at G. A. R. hall in the court house at 2 p. m. Sunday, May 26.

Those on the committee for Oak Grove cemetery are as follows: Section No. 1—H. K. Vincent, Max Affeldt, C. H. Rawlinson, W. W. Cameron, H. C. Dean. There are twenty-five graves in this section.

Section No. 2—In charge of W. H. Emily, F. H. Fowler, Wm. Schroeder, E. Rick, C. A. Wolford, W. A. Bacon. Thirty-nine graves in this section.

Section No. 3—In charge of Albert Hardy, A. M. Toeller, Wm. Irwin, Lester Aiken, W. C. Winter, S. E. Grant, W. D. Noble, J. W. Lawrence. Fifty-one graves in this section.

Section No. 4—In charge of J. M. Holley, A. B. Chandler, H. Meyer, Andrew Bauer. Forty-one graves in this section.

Section No. 5—Soldiers Lot in charge of W. J. Davidson, Edmund D. Cronon, Louis Mairich, E. C. Koops, Otto Sill. Thirty-seven graves in this section.

Catholic and Jewish cemeteries in charge of T. O. Lawrence, M. Seivert, A. H. Englehard, C. J. Weiger, L. H. Sill, James Jarvis. Forty-six graves.

Morning Exercises

The committee will meet at the Court House at 8:30 where the different sections will be formed of the school children to decorate the graves. As soon thereafter as the divisions are formed, the procession will start, going east on State street to Twelfth street, thence to the cemetery.

After the graves have been decorated all will assemble at the "Soldiers' Lot" where the following exercises will take place:

Assembly by the band.
Invocation by Rev. W. P. Christy.
Reading of order No. 11 issued by Commander in Chief General John A. Logan, designating May 30th as Memorial day, by Comrade Albert Hardy.
Short address by Rev. W. P. Christy.
Reading of "Lincoln's Gettysburg address," by John M. Holley.
Benediction by Rev. W. P. Christy.
"Taps."

The procession will then reform, and march to the Court House and be dismissed.

The committee having in charge the decorating of graves in the Jewish and Catholic cemeteries will meet at the Court House with the children who are to go to those cemeteries not later than 9 o'clock. After getting the flowers and flags they will march to Fourth and Main streets, and take street cars for designation.

After decorating has been completed, all will assemble at some suitable place where the exercises will be conducted as follows:

Reading of order No. 11 issued by Gen. John R. Logan, designating May 30th as "Memorial Day," by James Jarvis.
Reading of "Lincoln's Gettysburg address," by A. H. Englehard.
Rev. Father Joseph Reisterer will conduct the religious exercises in the Catholic cemetery.

When all is completed, the committee and children will return on street cars to the corner of Fourth and Main streets, and be dismissed. This ends the forenoon exercises.

Afternoon Exercises

The procession will form on King street, the right resting on Fifth and will form in the following order: Band, Co. M, Co. B, Wis. N. G., G. A. R., S. W. V., S. of V.

The line of march will be as follows:

North on Fifth to Main, west on Main to Fourth, north on Fourth to State, west on State to Third, south on Third to Pearl, east on Pearl to Fourth, south on Fourth to King, east on King to Fifth. The memorial exercises will be held in the old Y. M. C. A. building and will be as follows:

Music by the band.
Prayer by Rev. D. C. Jones.
Reading of order of General John A. Logan, commander G. A. R., designating May 30th, as Memorial day, by Comrade Albert Hardy.
Music by the band.
Reading of Lincoln's Gettysburg speech, by Comrade John Holley.
Music by the band.
Address, by Comrade C. L. Hood.
Benediction by Rev. D. C. Jones.
Music by the band.
This ends the exercises at the hall.

Remember Sailors

The procession will then form and march to the wagon bridge, headed by the band, where flowers will be strewn on the waters, to perpetuate the memory of our dead sailors.

This finishes the exercises of Memorial Day, 1912.

MISS BRADLEY CONFESSES

Hopes That Her Statement, Made Public, Will Save a Great Many Wrongly Suffering Women

Hines, Ala.—"I must confess," says Miss Eula Mae Bradley, of Hines, Ala., "that Cardui, the woman's tonic, has done me a great deal of good."

Before I commenced using Cardui, I would spit up everything I ate. I had a tired, sleepy feeling all the time and was irregular.

I could hardly draw account, and would have severe headaches continuously.

Since taking Cardui, I have entirely quit spitting up what I eat. Everything seems to digest all right, and I have gained 10 pounds in weight.

I still have headaches occasionally, but nothing like as bad as before. I intend to continue using Cardui until I am entirely well.

You may publish this statement, as other ladies might profit thereby."

If you are a victim of any of the numerous ills so common to your sex, it is wrong to suffer.

For half a century, Cardui has been relieving just such ills, as is proven by the thousands of letters, similar to the above, which pour into our office, year by year.

Cardui is successful, because it is composed of ingredients which act specifically on the womanly constitution.

Its popularity is due to its merit. Give it a trial for your trouble.

STEAM PIPE BURSTS; TWO WILL DIE

MARQUETTE, Mich., May 22.—The steamer James E. Davidson, bound for Duluth, put in here today with eight of the crew in a serious condition. The men were working in the coal hold when a steam feed pipe burst, throwing boiling water into every corner of the compartment. The injured men were taken to St. Mary's hospital, where at least two are expected to die.

SENTENCE OF DEATH FOR CONVICT SLAYER

LINCOLN, Neb., May 22.—Albert Prince, a negro convict and slayer of Deputy Warden Davis at the Nebraska penitentiary last February was sentenced to death. The deputy warden was stabbed by Prince during Sunday services in the prison chapel. Attorney Howard, for Prince, has appealed from Judge Cornish's rule refusing a new trial and the supreme court, under the statute, must grant a respite pending decision.

Washing Day! and No Parowax

PAROWAX in the laundry is a necessity. 1¼ cents' worth in a boiler full of soiled clothes, gently loosens the dirt from the fabrics—leaving every article *clean, fresh and dainty*. No hard rubbing needed.

PAROWAX does not "yellow" white clothes.

Does not fade the most delicate colors.

Makes lace-trimmed articles, fine table linen and delicate striped shirts look like new.

PAROWAX is pure and harmless.

It saves hours of time and work when canning fruit or pickles, or making jelly, preserves or catsup. Seals everything air-tight—makes it keep fresh and delicious.

TO REFORM THE RAILROAD STATION

If we could only believe that the announcement that the Illinois Central and the Yazoo and Mississippi railroads had appointed a health officer to look after the sanitary conditions of the depots presages a big reform in railroad circles, that it means that hereafter a station is to be a place of joy, of lightsomeness, of pleasure, instead of the dull, dark, dirty place it has been from time immemorial. But no, it is too great a leap for the imagination. We may abolish the public drinking cup and the roller towel, we may compel the public to carry its own cup to secure a paraffined paper one from the railroad company or go thirsty, we may prevent engines from disturbing us inside the city by unseemly noises. But can a wave of reform sweep over us so large that it can wash clean, not the big terminal stations alone, many of which are already in a state of something approaching purity, but the thousands of stations in the little towns? Can it wash out the grimy cuspidors, cleanse from the floors the dirt, that approximates the accumulation of practically the life of the road, disinfect the toilet facilities? Can it replace the atmosphere of stale and heavy tobacco smoke, with the mingled redolence of countless olfactory disturbers with something more wholesome? Can it clean the soot from the walls, the cinders from the floor, the black of the ages from the seats?

It may, but let us hope that such a reform will come gradually. The public is not prepared for such a change all at once. It would be lost. It would wander into a railway station, look around in sudden awe and tiptoe out again. It would gaze up and down the track in consternation and ask the nearest native where the depot could be found.

And yet we feel that this will come only at the millenium, when the railroad coaches will be decently ventilated and will not always be either very much overheated, underheated or without any heat at all, but in either case stuffy, and when one nice old lady will not call the brakeman to open the ventilators only to have another nice old lady promptly call him to close them again. And that will be the time, too, when a dustless road is as dustless as it is advertised to be.

"How to own the United States," was the theme of a southern pastor's sermon a few Sundays ago. The simplest way, in our opinion, to acquire such ownership, would be to induce Theodore Roosevelt to lend it to you, and then keep it.

A Buffalo doctor says that a near future possibility is the reconstruction of new living bodies from the few perfect organs of the dead. This will never do. Persons are too artificial now.

"Further Particulars"

The state board of health recently received a certificate of death in which the cause was given as "traumatic neurosis," or a nervous condition caused by physical violence done the body, producing a shock or wound. The information was not regarded as sufficiently specific and Dr. Carter, chief statistician for the board, wrote for further particulars. In the reply received was the following:

"The deceased was a veteran of the Civil war, and in engagements was twice shot, once in the left foot, causing a permanent wound, and once in the midbody, causing another wound, which never properly healed. In 1890 he was in a head-on collision on a railroad, which resulted in a fracture of the right ankle, the left arm, three ribs, and the right shoulder blade. In 1894 a locomotive turned over on him, crushing his right side, causing a wound which never healed. In 1899 he came in contact with a broken trolley wire, and received a terrific shock. The suffering from his wounds caused him to begin the use of morphine, and the drug, with the suffering brought on the nervous condition which caused the death."—Indianapolis News.

Quips and Cranks and Wanton Wiles

The Sailor

(Aboard the schooner Mabel Jordan, 1898.)

He never knowed much of things in books
He never knowed any more;
He's mostly sober around the ship,
An' drunk when off ashore;
But when in a piping sou'west gale
There's work in the tops to do,
He's up, though the seas break over the trees,
If them's his orders to.

He sleeps in a bunk too short if he's tall,
An' narrower than he is thin,
And all of him's huddled into a hut
You wouldn't pen cattle in;
But he scrapes her deck and he cleans her paint,
Till she looks like she was new,
Though the sun on his head makes him wish he was dead,
If them's his orders to.

He's hot when it's hot an' cold when it's cold
An' sicker than you would guess,
And it's pretty hard though he daresn't complain,
To stomach the fo'c's'le mess:
But he chops the ice from her ropes,
And off her canvas, too,
While his fingers is froze 'fore ever he knows,
If them's his orders to.

He never learned much o' right an' wrong
Aboard o' his Sunday School;
He never heard of a rule of love,
Nor yet of a Golden Rule;
But when his ship is sinkin' fast,
An' boats for half the crew,
He'll stand an' drown when she goes down,
'Cause them's his orders to.

—Percy Adams Hutchinson.

Feared Excitement

The departments in Washington receive some queer letters. Below is given verbatim a letter received last November by the bureau that has charge of the bonds of mail contractors, from a man who wished to get off a bond. It is unique. The last sentence contains a valuable suggestion to others who dislike to receive disagreeable news, especially on business matters. The letter tells how he signed the bond merely to oblige a friend and then continues with this personal history:

"i risk My life to go to the lection this fall i have Done all ican for you office men at the White House. So i Wood like if you office Men Wood get me out of trouble so I cod Rest I haint Work one Day for 13 years on count of Palpitation of the Heart Some times I can't bare the clock Strike So you no My heart is Weak you office Men Do all you can to get Mee out of trouble. if they had tolld Mee the letten was 4 year I Never Wood sind the bond I thought it was 1 year So I Was told when you Rits Dont Rits any thing that will excite Mee it Will Fly to My Heart."

—Kansas City Star.

Making Good

In his native town Jimmy had always been popular with young and old, but when he was sent away to boarding school he was for a time too homesick to make friends. His first letter was little more tran a wail:

"I'm way behind the other boys in everything," he wrote dolefully. "'Tisn't only studies, but it's gymnasium and banjos and everything. I don't believe they'll ever have much use for me."

But the second letter, written after a week in the new school, was quite different in tone.

"I'm all right," he wrote to his mother. "The boys say they'll teach me all they know, for they're proud to have me here. I can stretch my mouth half an inch wider than any other boy in school, and my feet are the longest by a full inch. So you needn't worry about me any more."

'ECZEMA ITCHED SO I COULDN'T STAND IT'

Began by Little Pimples. Scratched Until Blood Came. Kept Getting Worse. Could Not Sleep Nights. Used Cuticura Soap and Ointment and the First Day They Relieved Itching. In 3 Weeks Eczema Cured.

"I suffered with eczema on my neck for about six months, beginning by little pimples breaking out. I kept scratching till the blood came. It kept getting worse, I couldn't sleep nights any more. It kept itching for about a month, then I went to a doctor and got some liquid to take. It seemed as if I was going to get better. The itching stopped for about three days, but when it started again, was even worse than before. The eczema itched so badly I couldn't stand it any more. I went to a doctor and he gave me some medicine, but didn't do any good. We have been having Cuticura Remedies in the house, so I decided to try them. I had been using Cuticura Soap, so I got me a box of Cuticura Ointment, and washed off the affected part with Cuticura Soap three times a day, and then put the Cuticura Ointment on. The first day I put it on, it relieved me of itching so I could sleep all that night. It took about a week, then I could see the scab come off. I kept the treatment up for three weeks, and my eczema was cured.

"My brother got his face burned with gunpowder, and he used Cuticura Soap and Ointment. The people all thought he would have scars, but you can't see that he ever had his face burned. It was simply awful to look at before the Cuticura Remedies [Soap and Ointment] cured it." (Signed) Miss Elizabeth Gehrki, Forrest City, Ark., Oct. 16, 1910.

Although Cuticura Soap and Cuticura Ointment are sold by druggists and dealers everywhere, a liberal sample of each, with 32-page booklet on the skin and hair, will be sent, post-free, on application to Potter Drug & Chem. Corp., Dept. 17B, Boston.

Where was she going? It seemed to me that every hour added to the chain of mysteries in which I had become involved. I was convinced that in some way Louise, too, had been ensnared by the master of crime who had plotted all this evil, but how, I could not imagine. Yet more and more, it seemed to me, all clues pointed to Hugh Crandall. What could have been Louise's motive in denying to me that he had been in the house? She must have known it.

I began to wish that I had taken Davis' advice and remained in Ardway. Perhaps by this time I would have had some definite clue. I resolved to go back there at once. The inspector seemed to think that that was the most fruitful field for investigation, and probably he was right. Hailing a taxi, I bade him drive me to the ferry, but to my great annoyance reached it just two minutes too late to make a train. Too dispirited to do anything else, I entered the waiting ferryboat, and sinking into a seat in the corner, gave myself up to bitter reflection on my failure to solve the problem I had set myself. The more I thought about it the more firmly I became convinced that it was wise to disregard Louise's request. My love for her, my duty to her, demanded that I go on.

So absorbed was I in my reflections that I did not notice that the boat had reached its slip, and I was almost the last to leave it. Just as I stepped off the gang-plank a huge machine shot by me, giving me barely time to catch a look at the occupants, but in that fleeting glimpse I recognized them both.

It was Louise with Hugh Crandall.

CHAPTER XI.
More Discoveries.

The worse the injury the less it hurts at the moment. I once saw a man with both legs cut off laughing and joking with the men who pulled him from under a car. Though he died in ten minutes, I doubt if he suffered half as much as if he had bumped his head or had run a splinter under his thumbnail. It is when you are mortally hurt and live that the pain becomes so terrible.

In the few minutes I had had with Louise I had not realized the depth of the wound in my heart her conduct toward me had made. Even when I saw her dash away from me in an automobile, pained though I was that our interview should have been cut short, I still did not comprehend what a terrible blow it was that had befallen me. It was the sight as I left the ferry of the automobile dashing by, with Louise—the woman I loved—seated beside Hugh Crandall, that gave new poignancy to my pain, that added to the fires of jealousy, that made me understand to the full the dire import of what had happened.

Louise had lied to me.

Crandall had been in the house. She had seen him. She had left me to join him. She had even deserted her helpless sister and her dying father to go with him. And all the while her lips had protested that no one had been in the house but the doctors and nurses.

As I paced the platform and paced it back again, waiting two weary hours for an Ardway train, as I sat for two unending hours more in the long ride through New Jersey, like a poisoned knife, cutting my heart to shreds and cutting the shreds again, the thought kept coming back to me over and over, "She lied to me."

Quarter a man alive, pour molten metal into his eyeballs, feed him salt fish and cut off water, bury him alive in quicklime, devise what torture you will and double it, the pain and agony can not equal that which comes to a man who, believing in and trusting and loving a woman with his whole heart, is forced to admit to himself that she has deceived him—that she has lied to him. In those awful hours I came to know the seven hells. I went through all of them.

Only one ray of comfort came to me. As I asked myself "Why did she lie?" I found myself believing that she had done so, not of her own free will, but impelled by some motive so powerful that she could not resist it. That it was the influence of Crandall I could not doubt. He had so preyed on her fears for her father and sister, perhaps on her fear for me, that he had induced her to try to persuade me to give up my investigation and had made her promise to accompany him on some doubtful secret mission.

"It is not my secret."

I recalled the piteous cry my entreaties had wrung from her lips, and found the logical explanation of it in her having been terrorized by that villain, Crandall. If I could have found him at the moment I could have killed him with my naked hands.

Yet even though I was convinced that Louise had lied to me, I began to feel that whatever she had done, whatever she was now doing, was in the belief that she was acting for the best of her dear ones, for me.

My duty to her, my duty to myself, I reasoned, demanded that I do my utmost to solve the hideous mystery and free her from the fear that I was sure was responsible for her strange actions. I swung off the train at Ardway and hastened to the hotel, eager to tell Davis what I had learned about the movements of Hugh Crandall, but Davis was not there. All that I could learn was that he had hired a horse and buggy early in the morning and had driven off in the direction taken by Crandall the day before.

"If he is following Crandall's trail," said I to myself, "he is just a day too late."

So long as Davis was not about I decided I might as well see if the missing postmaster had been found. As I walked up the street I could not help thinking how dumbfounded Davis would be when he returned from his fruitless chase for Crandall and listened to my tale of Crandall's actions. While he had advised against my return to the city, he would have to admit that it had not been without result.

As I entered the postoffice I found that Miss Cox was still in charge. Approaching the letter window, I bade her good afternoon and asked if there was any news of the missing postmaster. It was late in the afternoon and the last mail for the day having been distributed, she sat crocheting. She motioned to me to come around to the rear door.

"How about it?" I asked, as I entered the office, "has anything been heard of Rouser?"

She shook her head.

(To be Continued)

Nature has made ample provision in the sunshine and moisture of the air for the outward life and protection of the skin, but the more important work of nourishing the cuticle has been left to an inward source—the blood. It is from the circulation that the pores and glands receive their support, and the fibrous tissues are all preserved in a healthful state because of constant nourishment supplied by the blood.

So long as the blood is pure and rich the skin will be free from eruptions or disease, but when the circulation becomes infected with acids and humors its nourishing and healthful properties are greatly diminished, and this acrid, humor-laden condition causes irritation and inflammation of the delicate tissues and fibres. Then the effect is shown in Eczema, Acne, Tetter, Salt Rheum, or some other distressing, disfiguring skin disease.

Humors and impurities get into the blood through a deranged or inactive condition of the system. Those members whose duty it is to collect and expel the refuse matter of the system fail to properly do their work, and this surplus or waste matter is left in the system to sour and be absorbed into the blood.

The cause of all skin diseases can be traced to some humor or acid in the blood. Smooth, healthy skins are only possible where the circulation is pure; and therefore the cure of any skin affection can only come from a thorough cleansing of this vital fluid. Salves, washes, lotions, etc., are vaulable only for their ability to keep the skin clean, allay superficial irritation, or soften the hardened cuticle. Such treatment cannot cure because it does not reach the blood where the cause is located, and to depend upon such measures alone usually results in the aggravation and spreading of any skin trouble.

S. S. S. cures Skin Diseases of every kind by neutralizing the acids and removing all humors or other impurities from the blood. S. S. S. cools the acid-heated circulation, builds it up to its normal strength and thickness, multiplies its rich, nutritious corpuscles, and adds to its purity and nourishing qualities in every way. Then the skin instead of being irritated and inflamed by acids and fiery humors, is nourished, soothed and made perfect by a plentiful supply of rich, pure blood. S. S. S. is the greatest of all blood purifiers and therein lies its ability to cure skin troubles. It cures Eczema, Acne, Tetter, Salt Rheum, pimples, boils, rashes and all eruptions of the cuticle. These troubles cannot remain when the cause has been removed, and S. S. S. will certainly remove the cause by purifying the blood. Book on Skin Diseases and medical advice free. *THE SWIFT SPECIFIC CO., ATLANTA, GA.*

I suffered with a bad case of Eczema for over 12 years, and I tried everything I heard of. Nothing helped me until I began to use S.S.S. I commenced this medicine and the Eczema soon begun to gradually disappear. I continued taking S.S.S., and it completely cured the disease and every blemish and eruption left. The sores and itching so characteristic of this trouble have entirely left, and I am sound and well.

Modern Railroading

Martin Clardy of St. Louis, general solicitor for the Missouri Pacific and Iron Mountain railways, is one lawyer who sometimes objects to being interviewed. And when reporters are too insistent Mr. Clardy has a stock story which he tells to shut off the interview. Says Mr. Clardy:

"An irate shipper once entered the general offices of a railway company.

"'Where's the general superintendent?' he demanded.

"'Out on the road,' was the reply of the clerk.

"'Where's his assistant?' This vary angrily.

"'Gone to the ball game!' snapped the clerk.

"'Then where's the vice president and general traffic manager?' exploded the shipper.

"'Gone north for the summer,' was the still indifferent reply.

"'When, then,' the angry caller fairly howled, 'who in thunder is running this railroad anyway?'

"'Oh, if that's what you want to know,' replied the clerk as he reached for another typewritten report, 'it's the newspapers.'"—Kansas City Journal.

LOCAL COUPLE WEDDED

MISS MAURIE STALLSMITH AND GEORGE WILLSON MARRIED AT HIGH NOON YESTERDAY

Miss Maurie Sallsmith and George Willson were married at high noon yesterday at the home of the bride, 1522 Loomis street, by Rev. Clark. Both of the couple are well known in La Crosse.

Miss Maybelle Canann was bridesmaid and J. C. Willson acted as best man. Floyd Stallsmith was usher, while Miss Dorice Charlene Gault was the flower girl. The bridesmaid carried a bouquet of pink carnations.

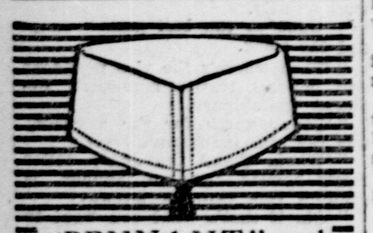

The bride was attired in white and she carried a beautiful shower of lilies of the valley. The bride was given away by her father.

Immediately following the ceremony the couple left on the C. M. & St. P. railroad for Winona and they returned and passed through Grand Crossing on the C. B. & Q. train, No. 58, last evening on their way to Detroit, Mich., on their wedding trip. A large number of friends of the couple gathered at the Grand Crossing station and all had a supply of rice. The couple will reside at 1526 George street after they return from their wedding trip.

Out of town guests who were present at the wedding were: Mrs. G. D. Glatpelty of Los Angeles, Cal.; Mr. and Mrs. C. O. Gault and daughter, Chicago; Mrs. F. C. Gault, Geneseo, Ill.; Mr. and Mrs. J. C. Glass, St. Paul, and Floyd Stallsmith, Lansing, Iowa.

Highway Chemistry.

The Oregon Agricultural college at Corvallis, Ore., is boasting of the first course in highway chemistry that has ever been offered in any college in the world. Professor John Fulton of the chemistry department has taken this step as a result of the increased demand for good roads. The course includes both physical and chemical tests of tars, bituminous products, asphalts and all mixtures such as sands, gravels, rocks and other ingredients of the modern highway. Concrete testing and tests of the chemical changes in all these substances by exposure and weather will form an important part of the work, as well as the chemical study of surface protection, such as viscous oils.

YEHLE TO THROW HELMET IN RING

Veteran Patrolman Intimates He May Become a Candidate for Sheriff

Alois Yehle, 1411 Avon street, the veteran patrolman who has been on the local police force for a great many years, will probably throw his hat into the ring and announce his candidacy for sheriff on the republican ticket within a short time. Although Mr. Yehle has not as yet formally announced that he is a candidate, he is thinking of entering the race for the position of sheriff of La Crosse county and it would not surprise his friends to hear at any time that he is a candidate for that position.

"I have not as yet definitely announced myself a candidate for sheriff," said Mr. Yehle this morning, "but I may enter the race for that position within a short time. I will run for that office on the republican ticket as I have always been a republican and always will be. However, I have not yet entered the race for the position so I am not worrying at all buta I will announce my candidacy in plenty of time."

If Mr. Yehle enters the campaign and is elected sheriff of La Crosse county at the election next fall, it will mean that the local police force will lose the services of its oldest member. For many years he has been one of the most prominent figures on the La Crosse police force.

LOGANS DEFEAT FRENCH ISLANDERS

In a well played and hotly contested baseball game Sunday afternoon, the Logans of the North side defeated the French Island nine on the upper school diamond by the score of 7 to 2. Heinke, on the slab for the Logans, twirled a great game and he was unhittable after the initial inning, while Harold's delivery was solved when hits meant runs.

Score:	R	H	E
Logans	7	14	2
French Island	2	5	2

Batteries—Heinke and Laumen; Harold and Poquette.

TAG DAY NETS NEARLY $1,500

Associated Charities Society Receives Report that Sum Raised Is Larger than in 1910

MISS SABELWITZ RESIGNS

A New Director Will Be Elected at Next Meeting; $1,597 Is Subscribed

The net receipts or Tag Day were $1,498.79 according to the report of the result which was read at the regular meeting of the Associated Charities society last evening. These receipts exceeded those of the last Tag Day by $57.35 in spite of the rain which fell almost continually during tthe day. To show their appreciation of the splendid work done by the committee and their assistants, the society extended a vote of thanks to all who helped in the work on Tag day.

Miss Antoinette Sabelwitz, who has been one of the directors of the Associated charities for some time, handed in her resignation last evening because she is going to leave La Crosse. Her resignation was accepted by the directors who are sorry to lose her services as she has done excellent work as a director. A vote of thanks is to be given her for the services she has rendered the society. Another director will not be elected until a later meeting.

A report of the committee showed that $1,597 had been subscribed in twenty-one subscriptions to the Associated charities fund. This will enable the society to get a charity worker who is to be secured in time to begin work here on October 1.

Sol Burdick, agent of the society, submitted his report of the work done by him during the month.

An invitation from the national association inviting the local anti-cruelty association to join, was referred to the humane society.

WHEN SPAIN GAVE UP CUBA

Drama That Began With Columbus Ended in Sorrow After the American War.

Arriving in Havana on the afternoon of December 31, 1898, the day before Spain surrendered the island, I presented to Major General Ludlow a letter of introduction from the son of one of his close friends, and asked for a pass which would enable Mrs. Thayer and myself to see the next day's ceremonies at the palace. The pass was presently forthcoming.

It was five minutes to twelve next day. At that instant rose the solemn strains of the Spanish anthem. As it ceased there was a moment's silence. Then up through the casements came the "Star Spangled Banner," and the procession, which had formed below, wound its way through the great portal and up into the room where we were. Major General Brooke and the officers under his command, their dress uniforms and yellow sashes a bright note of color, entered first; then came the swarthy Cuban leaders, their uniforms less splendid, but their dignity beyond question; and last of all, General Castellanos and his staff.

The scene was too painful to prolong. A moment of formalities and it was over, and the defeated said farewell. It was an ordeal for a man of Castellanos' temperament. Tears came to his eyes.

"I have been in many battles," he faltered, "many trying situations, but never in a position like this." Then, as we watched, the little handful of Spanish troops, headed only by fife and drum, set their faces toward Spain. The drama which began with Columbus was finished.—John Adams Thayer, "Out of the Rut."

Expert Medical EXAMINATION
AND CONSULTATION FREE

I want to talk to every sufferer. The fact that you have been treated elsewhere without benefit and are skeptical does not discourage me in the least; nearly all of my patients tell of this same experience. I am curing men and women every day and feel sure I can do the same for you. I especially solicit the stubborn, chronic, seemingly incurable cases. Persons who realize the seriousness and gravity of their condition, and will appreciate benefits conferred and the cure I give, come to me for free consultation. I will then explain how different, better and more curative are my methods of treatment than those possessed by others. My special training and long years of experience in treating all Chronic, Nervous, Blood, Pelvic and Special Diseases give me many advantages over the average physician.

I treat Rheumatism, Enlarged Veins, Fistula, Piles, Constipation, All Rectal Diseases, Weak and Unhealthy Kidneys, and Lingering Ailments.

I personally attend everyone who applies for treatment at my office, as I have no incompetent hired doctors to unskillfully treat my patients, and every man who engages my services gets the benefit of the efficiency that has marked my success in the past.

I have cured thousands, many of whom had been given up for lost. If your physical system has been impaired, if your vitality is assailed from overwork or worry, if you are tainted by disease in any form, you owe it to yourself to seek and obtain a restorative power at once.

MY COUNSEL WILL COST YOU NOTHING, BUT MY CHARGES FOR A PERFECT CURE WILL BE REASONABLE AND NOT MORE THAN YOU WILL BE WILLING TO PAY FOR THE BENEFITS CONFERRED.

LADIES CONSULT A SPECIALIST If you are suffering from persistent Headache, Pains in the Back, and feel as if it were impossible for you to endure your troubles and still be obliged to attend to your household and social obligations, I will cure you if you trust yourself to my care. BOARD OF HEALTH SMOKES ON STATE

ST. PAUL, Minn., May 22.—Reveling in $20 dinners, smoking Havana cigars, riding in taxicabs and "splitting up" practically all the money that has come into its hands, the State Board of Medical Examiners has spent nearly $6,000 since May 1, 1910, which rightfully belongs to the state, according to charges made by Andrew Fritz, state public examiner, in a report made to the governor Tuesday.

While he makes no direct accusation, Mr. Fritz points to an opinion given by Lyndon A. Smith, assistant attorney general, in 1910, in which he said that the "reciprocal fees" of $50 each, collected by the board, should be turned into the state treasury. Since the opinion was given, the board has collected and kept $6,110 less $985.86 now on hand.

Germany has added another to its list of distinctions. It has produced the perfect truant. A boy of Dortmund was transferred from one school to another; he found out that his name was not entered on the register. That was four years ago. Since then he has gone from home every morning with his bag of school books, and each evening at the appointed hour he has returned. It has now been discovered that the new school has never seen him, and that he has had four years of vagabondage.

Formation of Icebergs.

The proportion of an iceberg which will be under water is determined by comparing the density of the ice with that of the surrounding sea water. The densities of ice and sea water are nearly .92 and 1.03, respectively, from which it can be calculated that only about one-ninth of the berg's bulk is visible above the surface. No iceberg could float with one-third of its actual bulk out of water, but if it were irregularly gormed, with peaks, it might seem to be much less than eight-ninths submerged.

MANY GRADUATE FROM RIPON COLLEGE

RIPON, Wis., May 22.—Ripon college will graduate twenty-eight students with the degree of bachelor of arts and one will be awarded a master of arts degree at the annual commencement, June 12. Only two of these students are from outside the state, one being from New York and the other from North Wales.

Among the outgoing students will be some of the most active college men and women in academic and athletic activities in Ripon in the last four years, meaning a big loss to the student body.

To James Imrie of Roberts, will be awarded the master degree for work done in the science department. He received his bachelor degree a year ago.

Volcanic Ash for Cement.

For some time a Japanese company has been engaged in the exploitation of the use of volcanic ash in connection with Portland cement and it is claimed that this combination is particularly valuable in the construction of works which are submerged in salt water. It is claimed that the cement thus formed possesses greater tensile strength, and is denser than ordinary Portland cement. It is thought that should this industry prosper it might well be extended to the Philippines, where a great deal of volcanic ash is available.

Elephant's Prestige in Siam.

The whole elephant tribe is looked upon with great veneration by the Siamese. The elephant is the symbolic animal of the country, and though his ponderous strength is daily used in his master's service, he is man's co-laborer, not his beast of burden.

ON A ROOF GARDEN HAS GOOD FEATURES

The opening scene of "On a Roof Garden," the merry musical melange which Donald MacDonald is producing at the theater Monday, is an exquisite sight and represents a typical New York roof garden. Hundreds of lights are used and the costumes are very smart and charming. One of the most picturesque numbers is "The Man in Havana," sung by Miss Viola Doerflinger and a large chorus, who dance with exquisite Spanish scarfs. Harry Marshall and fourteen girls have a snappy girl song, and Emil Niemeyer, assisted by Eileen Deneen and Phyllis Wheldon and chorus will sing "I'm Waiting for Kate." Miss Alma Hoseley and eighteen young men have a beautiful number called "Some Day You Will Meet a Maid." Aubrey Richmond sings "The Ragtime Glide" and does an acrobatic dance that is marvelous. Donald MacDonald, assisted by Ruth Heath does a delightful number called "The Stage Door Johnnie." Mrs. Grace McLindon Bartl and Mrs. George Dixon, great local favorites, have splendid parts, as has Elsie Ott, Vance Pooler and Edith Derr. When the seats go on sale Saturday morning the house will undoubtedly sell entirely out. It's unquestionably the best of Mr. MacDonald's fine shows here.

TO ENTERTAIN GUILD

The Woman's Guild of Christ church will be entertained Thursday afternoon at 2:30 in the guild rooms by Mesdames I. G. Loomis, S. L. Meister and Minnie Thurber.

WOMAN'S MISSIONARY UNION

The Woman's Missionary union will entertain at a supper in the parlors of the M. E. church Friday evening. Supper will be served at 5:30 instead of 6 o'clock as previously announced. After the supper the annual election of officers will take place and a social hour enjoyed. At 8 o'clock those present will have an opportunity of listening to Dr. Isaac Headland of the University of Pekin, China, in the church auditorium. The publis generally is invited to attend. Dr. Headland is an interesting speaker and his talk will be replete with much that will be instructive.

Mrs. Fred J. Noetzel entertained a few ladies at a coffee yesterday afternoon.

MR. AND MRS. M'DONOUGH GIVE A DINNER

Mr. and Mrs. J. F. McDonough entertained at a dinner of eight covers at their home on Cass street last evening. Their guests were Mr. and Mrs. John Elliott, Mr. and Mrs. John Salzer and Mr. and Mrs. A. L. Grams.

ANNIVERSARY SURPRISE PARTY

pleasantly surprised shrdlu upj¼u Mr. and Mrs. Ole L. Nelson of 2112 Cass street were pleasantly surprised last evening in honor of their twenty-fifth wedding anniversary by the members of the West Avenue Norwegian Lutheran church and friends. An elaborate and dainty supper was served in the church parlors after which the "bridal couple" was presented with a handsome cut glass fruit bowl and a substantial silver purse by Rev. A. Anderson in an appropriate speech. The bridegroom responded delightfully with a short speech of thanks. There were about 150 relatives and friends present in tthe church parlors which were handsomely decorated with roses, carnations, lilies of the valley and huge wedding bells of fragrant lilacs.

The church choir rendered a few selections in an able and beautiful manner.

SOCIAL BRIEFS

Mrs. Frank Winter has returned from Madison.

Mrs. H. P. Bliss has returned from Milwaukee, where she spent the winter with her daughter, Mrs. Ellis B. Usher.

Mrs. George Hixon of Chicago, who is to take one of the prominent parts in "On a Roof Garden," arrived in the city this morning.

Mr. and Mrs. E. C. Josten entertained at a small dinner Saturday evening.

Miss McNair entertained several tables at cards Monday evening.

The Ladies' Aid society of the First Presbyterian church will be entertained at the church parlors at 3 o'clock Thursday afternoon.

The Ladies' circle of St. Paul's Universalist church will hold their annual election of officers at the church parlors Friday evening, May 24, after which a picnic supper will be served.

The Fishing Frog.

The fishing frog buries himself in the mud and lies barely concealed in weeds, where, with his huge mouth open, he fishes for his dinner. On the back of his head there are three spines, the longest of which he bends forward in front of his mouth, gently swaying it in the water. At last it attracts a young fish, which makes a spring for the supposed worm, when—snap—the mouth is closed, and Mr. Fishing Frog has had his dinner.

One of Memory's Triumphs.

"Time," says the Sedgwick Pantagraph, "may rob us of our teeth and hair, but it can't take away the memory of how good the ground used to feel to our bare feet along about the springtime."

WISCONSIN NEWS

STATE CONFISCATES WEIGHING DEVICES

MADISON, Wis., May 22.—During the first three months of the operation of the new weights and measures law this year, 66.1 per cent of the 18,395 weights and measures inspected by the state department were correct. The number adjusted was 6.2 per cent and the number sealed 72.3 per cent of the total. The number condemned for repairs was 1,951, or 10.6 per cent, and the number condemned absolutely was 3,152, or 17.1 per cent.

It is not possible to estimate with any degree of exactness the pecuniary saving to the people of Wisconsin from the enforcement of the new law, State Inspector Fred L. Downing says it will amount to "thousands of dollars." In the department's office in the capitol is a forceful exhibit in the form of a pyramid, ceiling-high, lined with confiscated measures of every description. There is a "two-gallon" dry measure which is one pint short. Bottomless measures, now officially prohibited, are numerous. Liquid measures lined with concealed molasses to an extent as to deprive the buyer of full measure are conspicuous specimens in this interesting exhibit. The rims of some measures made of paper have been cut off to make their contents smaller. One of the specimens is a small copper container confiscated from a saloon. A lot of these have been seized.

PAPER FAMINE IS THREATENED

MADISON, Wis., May 22.—Wisconsin paper manufacturers are sending out notices of an immediate advance in the price of paper and withdrawing all previous quotations. The reason is said to be the increasing cost of wood pulp and the consequent necessity of finding a substitute. Experiments to this end are being made at the United States forest products laboratory in this city.

Similar tests will be made at the new $30,000 laboratory at Wausau.

It is reported the paper industry is making an alarming inroads on the supply of spruce, which is more valuable as structural material than to be used in the making of paper. The woods which are being tried out in an effort to find a cheaper substitute are yellow, birch, white birch, maple, poplar, jackpine and hemlock.

HEI RTO ESTATE FINALLY FOUND

WAUKESHA, Wis., May 22.—Henry Brehmer, an heir to an estate valued at $20,000 which was settled recently after he had been legally declared dead, appeared in county court to claim his share of the state. He will receive $3,484.42. He was located in the far west after a long search.

APPLETON STRIKE BROUGHT TO CLOSE

APPLETON, Wis., May 22.—The paper hangers and painters' strike was settled on Monday when the strikers accepted the terms offered by the employers with the understanding that they were to receive 2½ cents an hour next year, commencing May 1. The strike took place over the demand for 30 cents an hour as the minimum for both paper hangers and painters.

THIRTY-TWO SAVED FROM SINKING SHIP

CORDOVA, Alaska, May 22.—The United States lighthouse tender Amerio is ashore near Cape Hincinbrook and is being pounded to pieces by the waves. The thirty-two persons aboard, including seven officers, twenty-four men and one survivor of the crew of the lost barge Hayden Brown were taken off by the steamship Admiral Sampson, which picked up the wireless distress signals.

The Admiral Sampson reported the loss of the Amerio by wireless and gave the additional information that the Amerio had solved the fate of the Hayden Brown which was cut adrift by the tug Pioneer in a storm in Prince Montague island in the entrance to the sound on May 12.

Only two of the eight men aboard reached shore and one died of exposure the next day. August Palmer, the lone survivor, lived on canned beef until picked up by the Amerio.

STREET CAR STRIKE FEARED IN DULUTH

DULUTH, Minn., May 22.—The threatened street car strike is still holding fire. Arbitration has been suggested by the city aldermen, who are alarmed over the prospect. The carmen are said to be awaiting the word to leave the cars, and the company officials declare they will replace the men the day they walk out.

The committee of carmen handling the trouble is out with a statement that the men are underpaid.

The peculiar formation of the city, "eight miles long and one mile high," would, it is maintained by the aldermen, in case of a car strike, maroon many citizens at each end where they could not reach the down town district.

PETERSON AFTER SENATORIAL JOB

ST. PAUL, Minn., May 22.—James A. Peterson, Minneapolis, former county attorney of Hennepin county, and known throughout the state as "the political janitor," announced his candidacy for the republican nomination for United States senator at the senatorial preference primaries to be held next September.

Mr. Peterson's announcement is brief, but he reserves the privilege at a later date to set forth his policies at length.

A Confession.

"Well," he said, "it is—let me see?—three years since we met crossing he ocean, isn't it? Are you married yet?" "No," she sweetly replied, "again.'

TAFT LOSES HIS HOME STATE TO COL. ROOSEVELT

(Continued from Page 1)

delegates. Wilson managers claim at least nine with two other doubtful. The Harmon managers will not concede more than five districts to Wilson. Harmon's presidential preference victory gives him the six delegates at large from Ohio, who will be named at the state convention in June.

The state convention in Columbus, June 3 and 4, will select the republican "Big Six." Walter Brown, the victorious Roosevelt manager, said: "While the Roosevelt men have made no fight for delegates to the state convention, we expect the state convention to observe the results in the district primaries. This means that six delegates at large, instructed for Roosevelt, will be selected."

Many of the claims by the Wilson and Harmon managers are based on incomplete returns from a few counties in each district.

The Wilson men claim a few counties in each district.

The Wilson men claim the two delegates in the Third, E. W. Hanley of Dayton and Edward Schnigen of Hamilton. These men had no opposition and were not pledged to either Harmon or Wilson.

Vallee Harold and M. F. Merriman, elected in the Tenth, are classed as supporters of Speaker Clark, but are expected to give Harmon their votes on the first ballot.

Bob Surprises Taft

Senator La Follette failed to capture a delegate in Ohio. He entered the contest only in the Ninth, Twelfth, Twentieth and Twenty-first districts, containing Columbus, Toledo and Cleveland. An interesting feature of the results is La Follette's strength in the Twentieth, comprising one-half of Cleveland, where he ran ahead of Taft. This was true in Medina and Lake counties and in the country districts outside of Cleveland.

Taft Won't Quit

WASHINGTON, May 22.—Far from being disheartened by the Ohio result, or signifying any intention of withdrawing from the race for the republican nomination, President Taft today indicated that he expects to fight harder than ever, up to the very day of the Chicago convention.

Taft's first official act on reaching Washington today was to "O. K." an extension of his New Jersey campaign tour, which keeps him making speeches in that state up to noon on Tuesday of next week. The New Jersey primaries open at 1 p. m. that day. This is probably the first time a presidential candidate has done done any campaigning on election day itself.

Fight Over Says T. R.

OYSTER BAY, N. Y., May 22.—The result in Ohio has settled the contest, said Theodore Roosevelt, at Sagamore Hill today when he was assured that he'd carried all but ten Ohio delegates.

"I believe we could have won without Ohio. Our opponents needed the substantially solid vote of Ohio in order to give them a chance to make a contest at the convention. The victory in Ohio means that it will be hopeless to try to best us at Chicago by unseating our delegates who represent the popular will in Washington, Indiana, Kentucky and elsewhere; nor will it be possible for them to win by seating delegates from the southern states representing nothing whatever but fraud."

Says Bob Has Chance

MADISON, Wis., May 22. — If Roosevelt or Taft is not nominated on the first ballot, Senator La Follette will stand a better chance to win the nomination than either one of them."

This is the view taken of the presidential situation by State Treasurer A. H. Dahl, who returned from California this morning. "La Follette's chances," continued Mr. Dohl, depend upon whether Roosevelt or Taft will have votes enough to be nominated on the first ballot. In case they fall short it is certain that neither one of them will be nominated.

By following his own advice a man may suceed in remaining poor to the tnd.

SAGINAW, Mich., May 22.—Damage estimated at half a million dollars and many families homeless are the results today of the unprecedented rainfall in eastern Michigan for the past seventeen days.

STILL AT SEA OVER BISHOPS

Eleventh Ballot Finds No Election of Methodist Episcopal Candidate

MINNEAPOLIS, May 22.—There is much speculation in the Methodist conference as to where the bishops will reside the coming quadrennium Bishop Neulsen, now of Omaha, is slated for Europe and will either go to Zurich or Rome. One of the newly elected bishops will be assigned to Europe and one to South America. Bishop Bristol will be assigned to the home land and will probably go to Omaha or Oklahoma City. Bishop W. A. Quayle will be assigned to Cincinnati, made vacant by the retirement of Bishop Moore. Bishop Henderson, just elected, may be sent to Denver, in place of Bishop Henry W. Warren, retired. Bishop Shepard may be sent to the Philippines and reside at Manila.

There is much speculation as to which bishop will be assigned New York city in place of Bishop Goodsell, deceased. Any one of the bishops would be highly flattered to be assigned to the metropolis but the committee on episcopacy has not as yet made any assignment to New York city.

The eleventh ballot reported last night resulted as follows:

Total ballots cast, 788; defective, 2; total counted, 786; necessary for choice, 524.

F. S. Henderson, 562; W. O. Shepherd, 532; N. Lucock, 382;, F. D. Leete, 374; R. J. Cooke, 362; F. B. McConnell, 359; W. H. Crawford, 354; W. P. Thinkfield, 276; D. G. Downey, 267; M. S. Hughes, 266; E. S. Tipple, 257; F. J. Hamilton, 238; R. E. Jones, 194.

William Jennings Bryan was introduced by Bishop Henry W. Arren. He received a tremendous ovation and responded in a speech that pleased the conference.

Mr. Bryan will lecture tonight at the Auditorium on "The Price of a Soul." Every seat in the Auditorium is taken and hundreds will be unable to hear the orator.

LARSON TRIES OUT WITH OUTCASTS

R. Larson, the local boy who has been playing a good game for the Athletes baseball team of this city, is playing third base for the Outcasts today in place of Horan, who has been covering the third sack so far this season. Manager Bond is giving the local boy a trial today to see what he can do on third base.

Pitcher Helgeson, the twirler who was secured by Bond from Mike Malloy of the Wausau club, arrived in the city today and worked out for a time at the park. Helgeson is a right hander and he will probably be given a chance to show what he can do in the game tomorrow. Seitz, the southpaw who was sent to La Crosse by Malloy, failed to put in an appearance up to this afternoon.

The local club today announced the release of Withrow, who played left field until yesterday, when Tomer appeared in that garden. Withrow was released outright by Bond.

Batteries today: La Crosse, Morse and Brown; Winona, Chapman and Chapman.

SPECIAL WATER COMMITTEE MEETS

The special water committee of the common council will hold a meeting at the city hall at 4 o'clock this afternoon for the purpose of preparing a report on the water plant plans submitted by Alvord and Burdick and Benezette Williams, to be presented to the council at a special meeting tonight. John W. Alvord, the Chicago engineer who has been conducting the investigation of the underground water supply and has offered four plans for the establishment of a plant in this city, will appear before the committee to assist in the drawing of the report. Mr. Alvord will also appear before the council at the meeting tonight to explain any points that may arise in the discussion of the plans for adoption.

OUT OF BED IN FOOT OF WATER

Then He Saved His Son and Daghter and His Wife Before It Caught 'er

"Get up, John," said Mrs. John Strong, 1103 Pine street, to her worse half Sunday evening, "I feel sure I hear water running."

"Y-a-ah!" yawned Mr. Strong, sleepily, and turned over on the other side.

"Hurry up, John, and see what it is," insisted Mrs. Strong. By dint of his lady's persuasion the man of the house finally half opened his eyes and swung his bare feet over the bedside.

"Ye-ow! ***! shrdlu!!" remarked Mr. Strong feelingly, wideawake.

He was up to his knees in water. At this juncture the two little boys, and two little girls who compose the rest of the Strong family, awakened by their father's fervent appeals when he discovered the drink, opened at full speed:

"Help! Mama! Daddy! We're floating away! Oh-h Dad!"

Calling down maledictions upon his fate, because he did not sleep like firemen with rubber boots at his bedside, paterfamilias arose and "saved" the children, carrying them one after onother to the upper floor of the house. Then he returned for his wife.

After rescuing his spouse Mr. Strong splashed around the lower floor until he found the leak. Two back windows and a door had been beaten open and the storm just "blew in." More remarks from Mr. Strong.

After closing the sluice gates, Mr. Strong waded out to the woodpile through the driving storm, and kept the ship from foundering by cutting a hole through the kitchen floor with the ax. The water flooded the basement, but Mr. Strong was by this time much too sleepy to care for a little thing like that. Then he returned to bed. The damage to floors and furniture by the imitation flood which swept the Strong household is estimated at $200.

TELLS HOW BOB LOST CALIFORNIA

MADISON, Wis., May 22.—"La Follette lost California to Roosevelt because the people believed Roosevelt was going to win any way," declared State Treasurer A. H. Dahl, who returned from a campaign speaking tour from the coast state today. "There was also a feeling that the Wisconsin senator's health was an uncertain quantity. These conditions added to the fact that Gov. Johnston's state machine was swung to Roosevelt proved the undoing of the Wisconsin man," said Mr. Dahl.

ARRESTED FOR THREAT

John Hanson appeared before Judge John Brindley this afternoon on the charge of threatening the life of Fred Egbert because the latter had torn down a fence upon his land so that he could pass through. Hanson declared that he had not threatened to kill him and he was discharged owing to lack of evidence. Hanson charged Egbert with the assertion that he would tear the fence down as often as he pleased. Following the discharge of Hanson, Egbert said that he would not tear the fence down again as Hanson might kill him, not being restrained by a bond.

Pink Teas Don't Help Suffrage Cause

CHICAGO, May 22. — Suggestions for suffragette success were fired rapidly at the delegates to the opening session of the Mississippi valley conference of suffragists. Mrs. Crystal Eastman Benedict, of Milwaukee, said: "If you want money for the suffrage cause the best way to get it is to go ask for it and not have tag days and bazaars."

Mrs. Edna Cutter, Kansas City, said: "If you want to get yourself, family or cause before the public, the only legitimate way is to do something that makes news, and not give a pink tea, and then blame the editor because he prefers to print an account of an automobile race instead of the list of your guests. If you want to address a street gathering, do it from a step-ladder rather than a soap box."

Miss Alice B. Curtis of Milwaukee said: "Soak suffrage sentiment into everybody who is soakable."

TAFT AND T. R. VARIETY STUNT

Senator Stone Likens Republican Campaign to a Vaudeville Performance

WASHINGTON, May 22.—Dubbing the present Taft-Roosevelt fight as a "series of vaudeville stunts in politics," Senator Stone this afternoon edified the senate with a long dissertation, bemoaning the republican fight.

The Taft-Roosevelt brotherhood continued, Stone said, until "the slimy and poisonous" serpent of ambition crawled across the path the two were taking."

"Since then," he declared, "these world famed republican leaders have been circling the country, abusing each other like pickpockets in language akin to the vernacular of a fish market or even something worse. The world outside looks aghast, and the press criticises, cartoons, laughs and taunts. What do you think Washington, Jefferson, Lincoln and other great presidents would think of such astonishing things? Can you imagine them running a campaign for the presidency as a candidate for marshal might run his campaign in one of the red light districts of a great city."

Stone proceeded to enumerate all of the choice epithets that Taft and Roosevelt have applied to each other during the campaign, declaring that if the spectacle were not "so unseemly" he would shout 'Lay on, MacDuff, and damned be he who first cries "Hold, enough!"'"

The Missourian said he was sure Taft "was innately a gentleman," and was forced into the "ruffian fight" by Roosevelt.

Wonderful Treatment For Corns Callouses and All Sore Feet

Millions of people who endure daily torture from sore feet will welcome the information that there is now a simple treatment that positively and quickly cures foot ailments of all kinds. You can say goodbye to corns and callouses; bunions; swollen, aching, bad smelling and sweaty feet. This treatment works right through the pores and removes the cause of the trouble. Use it once and your feet feel delightful; use it for a week and your foot troubles will be a thing of the past. "Dissolve two tablespoonfuls of Calocide compound in a basin of warm water. Soak the feet in this for full fifteen minutes, gentle rubbing the sore parts." Amazing results follow. Calocide was formerly confined to doctors' use but now any druggist will supply it. If he does not have it in stock he can get it in a few hours from his wholesale house. A twenty-five cent package is said to be enough to put the worst feet in fine condition.

BANK CLOSES WHEN PRESIDENT DIES

SHEBOYGAN, Wis., May 22, — The German bank, largest in the state outside of Milwaukee, voluntarily closed its doors today, pending reorganization or liquidation following the sudden death yesterday of Frederick Karste, 75, president of the institution for a score of years. The bank has a capital stock of $250,000 and deposits of over $3,000,00. According to the directors today the unusual procedure was taken merely because they did not care to assume the responsibilities which were entirely in the hands of the president at the time of his sudden death.

TRIMS HAT WITH A GROWING VINE

MATTOON, Ill., May 22. — To have a hat trimmed with a Chinese air plant is the supreme wish of the girls of this town. Miss Agnes Below was surprised to discover that the wreath of blossoming vine around the crown of her new summer hat was growing and the hat becoming a real "creation."

Close examination disclosed the fact that the decoration was growing thriftily independent of root nourishment. A botanist friend told her the wreath was made up of sprigs from a Chinese air plant.

BIG MANUFACTURER ASSAILS SETH LOW

NEW YORK, May 22.—Denouncing as "dangerous" bills now pending in congress in the interests of labor, such as the anti-injunction and contempt of court trial by jury members John H. Kirby, Jr., president of the National Association of Manufacturers, today made an attack on Seth Low, president of the National Civic Federation, and former mayor of New York.

"All of this legislation," said Kirby, "it is to be assumed the Hon. Seth Low approves, because its promotion is among the principal activities of the American Federation of Labor which he stands sponsor. What can we expect of our representatives in congress, and state legislatures when such men as Seth Low go out of their way to, not only defend, but to eulogize the individuals who are promoting such legislation."

ACTING REAL; HAD ACID IN HIS EYE

CAMDEN, N. J., May 22.—Members of the audience that saw Chester De Vonde for years famous as a star on the so-called "tank town" circuit in the leading role of "the great medical mystery" at a local theatre Monday night, were still sounding their praises of his realism today. This was especially marked in a scene at the end of the drama where he has medicine dropped into his eye to restore his sight. Following this scene, the curtain was quickly dropped and De Vonde did not appear to accept curtain calls.

Today the actor is in a darkened room in a local hospital and three physicians are trying to save his sight. In some way white carbolic acid was substituted for the bottle of water with which Paul Webster, playing the role of the doctor, was supposed to fill the medicine dropper and he dropped some of the blazing irritant into the right eye completely destroying its sight, and endangering the other optic.

LOCAL INSURANCE WRITERS SCORED

Heath Declares None Are Competent of Estimating Risks on Large Plant

WATER SYSTEM INADEQUATE

Lowry Declares Any Little Fire in Business District Would Mean Trouble

George M. Heath, manager of the Listman Mill company, when questioned by Fire Insurance Commissioner H. L. Ekern before the legislative examining board at the city hall last night, declared that there is not one real insurance man in La Crosse, and that not one of the forty local agents are competent of estimating the risks on a large manufacturing plant.

He recommended that the boards of insurance underwriters in Wisconsin cities be abolished and that a man be appointed in each city to estimate rates. He recommended that this man be selected through an examination similar to civil service examinations and be paid by the insurance companies.

He declared that despite the fact that the risks on flour mills have decreased wonderfully owing to new apparatus which does away with the dust, the insurance rates still remain exceedingly high.

Water System O. K.

Mr. Heath declared emphatically that the water system in La Crosse is inadequate for fire fighting purposes and that there has never been a fire in La Crosse that the fire department has been unable to cope with. He declared that the water system has gained a reputation as being unsatisfactory owing to newspaper notoriety.

MacWillie Testifies

D. W. MacWillie, superintendent of the Wisconsin Pearl Button company, testified that pearl button companies through the country are being charged too high a rate in accordance with the risks. He complained that he was unable to procure information in regard to the manner upon which the rates were based and cited an incident where he has been overcharged owing to this.

He said that two years ago his wiring system was declared to be defective by a member of the Wisconsin bureau and that he had the plant rewired. Recently upon asking the same member of the bureau, who has charge of estimating risks, how he based his charges upon the plant, he received the answer that there was an additional charge of 7 per cent owing to defective wiring. MacWillie declared that following the installation of the new system he had sent in a report by the company employed to install the system. According to this report the new wiring system came up to all of the national requirements.

Cuts Benefit Some

That rate cutting results in the giving of some insurers lower rates at the expense of others was the testimony of R. H. Lowry, agent of a union company, at yesterday afternoon's hearing. He said that while it was the rule of the members of the local board to abide by the rates established by the Griffin agency, he knew of certain instances when large insurers had benefitted by special rates and that if this plan became general it would mean higher rate of dwellings.

Mr. Lowry favored periodical inspection of mercantile and manufacturing plants, but declared that it should be done by state officials or someone without local connections. He declared personal friendship and politics would interfere with the efficiency of the work of a man employed by the city in this work.

Asked by Mr. Ekern whether he did not think a policy should be cancelled if the premium was not paid within one month, Mr. Lowry shook his head and said that sixty days was the shortest time in which the average merchant or manufacturer could conveniently pay. He asserted that 90 per cent of the business of the city is 60 days behind and that insurance must keep pace with the rest of it.

Agent's Profit Small

He said that there is not a large profit for the agent, that the insurance business is the law of averages and if the rates are cut the insurance companies would see to it that they did not suffer. He said that the agent averages $2.10 on dwelling policies.

Asked why the rates are so high in La Crosse, Mr. Lowry said that the board had accepted the Griffin rating, which was based on the findings of experts. He said that the water supply for fire fighting purposes is absolutely inadequate especially during sprinkling time in the summer. Any little fire in the business of manufacturing districts would mean a big problem for the fire department, he declared.

Urges State Review

Some method of review by the state as is now in practice on transportation was advocated by W. R. Montague, manager of the La Crosse Candy and Cracker company. He said that by this means all insurers would feel confident that they were getting a square deal. Mr. Montague also urged the adoption of uniform rates on similar risks, saying that such were not in force now.

"It appears to me," he said, "that our factory should receive a different classification. We are called a candy factory and in the came class we find candy kitchens where the fire hazard is many times as great We have to pay the rate set for these greater risks."

Asked by Mr. Ekern whether he thought the average insurance agent earned his money, Mr. Montague smiled and declined to answer, saying that he was not familiar with the work of the agent. He favored periodical inspections by competent authorities.

Fire Facilities Poor

A. Hirshheimer, president of the plow company, the first witness of the afternoon, said that he did not consider the fire fighting facilities of the city adequate because of the condition of the water system. He advocated a rigid investigation of all fires and a system of inspection of manufacturing and mercantile plants. He declared that since the local board was formed the company had written the greater part of its insurance outside of the city on account of the high rates here.

WATCHING THE SCOREBOARD

Only where Buck O'Brien opposed Gregg and Johnson twirled against Mullen were the hits scarce in both big leagues.

Lange's balk in the ninth with two out gave the Yankees their winning run a minute after a passed ball by Kuhn, of the White Sox, had helped them to tie the score.

Polishing off the world's champions vigorously, the Browns would have come up out of the cellar had not the Yankees won.

Byrne of the Pirate band, got four bingles in the victorious slugging match with the Boston Braves.

The Yankees lived up to their reputation for weak fielding by uncorking five weird errors.

Nap Rucker, star port-side flinger of the Brooklyn Dodgers, did not have his usual "stuff" on the ball and was forced to retire in the eighth after the Cubs made ten hits off his delivery.

Jimmy Callahan wanted badly to reinforce the White Sox grip on first place and used four twirlers and one pinch hitter against the Yankees.

The Giants took another grip on first place yesterday, beating the Reds on their own lot by 6 to 3.

Bond announces that he has two new pitchers coming from Wausau to bolster up his twirling staff. Either Tomer or Withrow will be let go and the latter may be the man to be released as Tomer played left field yesterday.

Van Horn made two pretty plays during the afternoon. The first one came in the third round when he speared Horan's high throw by a fine jump thereby probably saving a run. He also stopped a fierce one from Lewis Hillicker's bat in the fourth round just when it seemed about to go for a hit.

Brown is the special master appointed by the United States Circuit Court to take testimony in the suit. Mr. R. V. Lindabury is chief counsel for the Steel Corporation.

PAIGE

Quality is not an abstract thing

Paige Model Kenilworth, Fore-Door Roadster
Fully equipped, $1000

YOU can see it in every part of the Paige car. We do not need to speak of it in generalities. We can point it out in every feature of this extraordinary Paige mechanism.

Go from one display to another at an automobile show, or from one sales-room to another, and in merely looking at any number of cars in any particular price class, you won't see many striking differences. The cars will all look pretty much alike. Paint is paint! Wheels are wheels! Standard body-types on one car are like the same standard body-types on another.

But if you could go clear through the thousand-dollar price field and take the cars to pieces, get down into the insides of them, and investigate the materials and workmanship, you could see for yourself, even with slight knowledge of automobile construction, why we say Paige Quality is not an abstract thing, but a definite, concrete thing of which you can say, "here it is."

We do not claim the Paige is a $2000 car or a $3000 car. It isn't, and *neither are the other low priced cars whose makers try to fool you with such ridiculous claims.* But the Paige *is* the best built, most *enduring* automobile sold at $975 and $1000. From the motor to the last detail of construction and finish the Paige car is built to fix for all time the standard of high quality in its field.

GREAT AMERICAN TENOR IS COMING

Evan Williams Will Appear at the La Crosse Theater Friday Evening

IS TO BE A MUSICAL TREAT

Will Appear Under Direction of Clara Bowen Shepard of Milwaukee

La Crosse people may be congratulated in the engagement of the great American tenor, Evan Williams who will appear at the La Crosse Theater, Friday evening, May 31, under the direction of Clara Bowen Shepard of Milwaukee, who is well known here, having brought Schumann-Heinke here two seasons ago. Mrs. Shepard brings Evan Williams here with the co-operation of Miss Martha Rollins, supervisor of music

EVAN WILLIAMS

in the La Crosse public schools. Miss Rollins considers Evan Williams' artistic singing of great benefit to all students of music. Appearing with Mr. Williams will be Pearl Grice, the eminent violinist, who has recently returned from Brussels, Belgium, after several years' study with Ceasar Thomson, the well known teacher. Miss Winogene Hewitt, pianist, will be the accompanist.

Evan Williams' popularity is widespread throughout the country through his splendid Victor records. His records have been heard here in the public schools.

His program will include many English ballads, oratorio and operatic selections for which he is so famous. Evan Williams is one of the few great singers who entirely confines his program to songs in English.

Not since Schumann-Heinke's appearance here has there appeared here such a great singer as Evan Williams. People from Winona, Sparta and other surrounding towns will no doubt avail themselves of this opportunity of hearing Evan Williams. Mail orders may be addressed to Mrs. Clara Bowen Shepard, in care of Noelke's Music store.

IRVINE CHAMBERLAIN CHARACTER ACTOR

Irvine Chamberlain as Pecksniff in the senior class play "Tom Pinch," to be given in the high school auditorium Friday night, promises to prove an interesting and efficient character interpreter. The following are the opening words of the first act which are very cleverly spoken by Chamberlain in the philosophical way Dickens, the author of the play, wrote them: "How sweet it is to be in one's own home again. And yet, even the pleasure of resting under the sacred roof of one's own domicile is naught but transitory. Even the worldly goods of which we have just disposed, even cream, sugar, tea, toast, ham and eggs—even have their moral—see how they come and go. Every pleasure is transitory. We can't even eat long. If we indulge in harmless fluids, we get dropsy, if in exciting liquids we get drunk. What a soothing reflection is that!"

The entire play abounds with equally interesting soliloquies by "Tom Pinch," the hero of the play, being taken by Eugene Hundredmark, and "Mark Tapley," to be played by Hugh Downey. The rest of the cast are all capable players and are supporting the leading characters in fine form.

Tomorrow night the final dress rehearsal before the final production on Friday night will be given. Miss Vaughn of Bangor, who is coaching the play, has been working overtime to make this production a success from a standpoint of good acting and financially. Last year's play was well attended and this one promises to be equally well patronized.

WORTHLESS CHECKS PASSED.

The police authorities are today looking for an unknown man who is alleged to have passed five worthless checks on as many local saloon keepers yesterday. The checks, which were on E. Goldberg and signed "Jack Chom," were each for $14. They had been filled out on blanks of the National Bank of La Crosse.

CARLETON SPEAKS ON "ATONEMENT"

Rev. Carleton gave an address on "The Atonement" at the revival meeting held at West Avenue and Jackson street last night. He declared that the common use of the word atonement means to make good a loss for which you are responsible. He gave several example of worldly atonement and concluded by saying that no sacrifice that man can make can be equal to that which Jesus made to save sinners. He will continue his sermons each night this week.

SPOTLIGHTS

Miss Lloyd will be seen in that merry comedy with music, "Little Miss Fix It," at the La Crosse Theater May 29. The plot of the play deals with a young married couple who love each other so devotedly that they indulge in one of those "I'll never speak to you again!" quarrels peculiar to that blissful period just before and immediately after marriage. The wife determines to forget her own sorrow in the noble endeavor to make others happy; so she proceeds to "fix it" for all her friends who are either in love or, according to her ideas, should be. Of course, Miss Fix It attains her worthy end, but not until amusing situations, clever lines, tuneful songs, pretty girls and lovely stage pictures have combined to furnish an evening of thorough enjoyment.

Self-Supporting Animals.

The reindeer, like the camel, is particularly suited to the needs of nomadic people; easily satisfied in the matter of food, it is unnecessary to carry fodder for him; what cactus, thorns and other growths of the coarsest are to the camel, lichen or moss, always to be found by scraping away the snow, is to the reindeer; both are self-supporting travelers.—Bailey's Magazine.

BRITISH SUFFRAGE LEADERS GUILTY

Mrs. Emmeline Pankhurst and the Pethick-Lawences Get Nine Months Each

FOLLOWS WINDOW-SMASHING

Three Are Convicted on Charge of Conspiring to Destroy Property Maliciously

LONDON, May 22.—The worst blow yet suffered by the militant suffragettes of Great Britain came today when Frederick Pethick Lawrence Barrister, his wife, Mrs. Emmeline Pethick Lawrence, the joint editors of Votes for Women and Mrs. Emmeline Pankhurst were found guilty of having in November 1911 and March 5 last, "unlawfully conspired and agreed together to commit damage and injury to property, and with having aided and procured offenses against the malicious injuries to property act." Sentence was immediately imposed, the three defendants being sentenced to serve nine months each without hard labor.

They had fought against conviction bitterly, Lawrence, who defended himself and Mrs. Pankhurst having assailed the motives of the government in bringing prosecutions of political offenses under the criminal section of the code and Mrs. Pankhurst, in a two hours impassioned speech having protested against trial before a male magistrate and jury when the right of suffrage was denied her and her associates.

The government introduced as evidence against the prisoners documents and papers seized in the raid on the offices which tended to show that the window breaking campaign was part of a general campaign to force the authorities to grant woman the right of suffrage.

Sun Power Wasted.

Measurements have shown that on a clear, sunny day the sun transmitted to the earth energy which corresponded to about 7,000 horsepower per acre. At present all that is practically wasted, or rather generally in localities where any addition to the temperature could well be dispensed with. Attempts have from time to time been made to utilize this enormous supply of energy, but not with any great measure of success.

Original of Sam Weller.

The original of Sam Weller was Sam or Samuel Vale, who was well known as a London comedian who acted in the farce called "The Boarding House" and subsequently at Covent Garden theater. Sam Vale was noted everywhere for the Wellerisms, such as "Come on, as the man said to his tight boot." "I'm down on you, as the extinguisher said to the candle." "Where shall we fly, as the bullet said to the trigger," and "Let everyone take care of themselves, as the donkey observed when dancing among the chickens." Sam Vale died in 1848.

STATEWIDE CLUB TO BE ORGANIZED

La Crosse County Hunting and Fishing Club to Send Delegates to Madison

AXTELL OFFEES EXPLANATION

Lively Argument Over Commercial Fishermen's Action at Meeting Last Night

Plans for the organization of a state wide hunting and fishing association, which will be formed at a meeting of delegates from all parts of Wisconsin in Madison, May 28, were discussed at the meeting of the La Crosse County Hunting and Fishing association at the court house last night. Following the discussion, President A. T. Rasmussen and Professor J. P. Bird were elected delegates to the state convention. President Rasmussen was also ordered to issue credentials to any member of the association who desired to attend the meeting.

In view of the fact that the La Crosse County association is, in a way, father of the movement which will result in the formation of the state association, it is expected that a large delegation will attend from this city. The state association will be organized along the same lines as those under which the La Crosse County club is working, and will aim to procure legislation in the interests of the game and fish and song birds of the state.

Constitution Drawn Here

A tentative constitution and by-laws has been drafted by the executive committee of the La Crosse association and it is probable that it will be adopted with but little change at the meeting in Madison. There are more than 100 clubs throughout the state who have expressed a desire to join the state association and it is known that several more are in the process of organization so that they may be represented. The move has reached such proportions that the association is sure to exert great influence in future legislation.

While no definite plans have been made it is probable that Madison will be chosen as the headquarters of the association. The election of an executive committee which shall take up the matter of new game and fish laws will be one of the first steps of the new organization and it is probable that La Crosse will be represented by at least one member on this committee.

Axtell Explains

The appearance of J. M. Axtell, who represented the Upper Mississippi River Commercial Fishermen's union, before the joint legislative committee which caused the indefinite postponement of the La Crosse bill at the special session, was the signal for a lively argument.

Mr. Axtell protested that he had been wronged by the charges that the commercial fishermen had not acted in good faith at Madison and maintained that the bill which was presented in the legislature was not in effect the same that had been agreed upon by the commercial and rod men at the last meeting. He said that the legislation was not of an emergency nature and that all he had done was to ask for delay so that the market fishermen could find out what was intended. He declared that several essential features had been left out of the proposed measure and that owing to the lateness of the organization of the commercial fishermen they had no time to take the matter up again with La Crosse club before the legislature met.

Assertions Contradicted

Mr. Axtell left the meeting shortly after his explanation, saying that he had to make a train. Several of Mr. Axtell's assertions were contradicted by President Rasmussen, F. E. Gunther and Professor Bird. Dr. Rasmussen declared that Mr. Axtell had no excuse whatever for his conduct at Madison and that he had not acted on the square. He said that the copy of the proposed bill which had been quoted as having been changed was not the one the club intended to offer and that Mr. Axtell knew it. He said that the wrong copy, which was the first draft prepared to present to the club had been sent David Gantenbein, representing the commercial fishermen, by mistake and that Gantenbein and Axtell both knew it.

Professor Bird reported for the executive committee that nearly 3,000,000 pike fry had been planted in the waters contributary to the Mississippi river since the last meeting of the club and that several more shipments were expected in the near future.

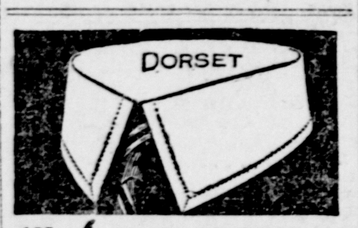

To Punish Offenders

The club went on record as favoring the punishment of all actions that would tend to antagonize farmers toward hunters and fishermen and ordered the publication of the offer of a $5 reward for information leading to the arrest and conviction of any one destroying fences, or leaving gates open so that cattle strayed from home damaging farmers' property.

J. P. Wehrer, Ludwig Kroner, Leonard Kleeber, H. Watkins and W. D. Babb were named as a permanent committee on membership.

A telegram from Captain Smith, superintendent of the government hatcheries at Homer, who was to have addressed the meeting, was read by the president announcing that on account of sickness in his family he would be unable to attend the meeting.

The association adjourned until after the meeting in Madison.

Forcing Growth of Plants.

Plants have a mind of their own on the subject of winter sleep, and gardeners have tried various methods of waking them up prematurely, to furnish blossoms at a time when they are scarce and costly. Mere greenhouse heat and moisture failing to yield the desired results, they have successfully tried warm baths and ether vapors to shorten the hibernating period of bulbs. From Germany comes a description of the latest plan, devised by a man named Weber. By sticking a needle into the base of a bud he has caused it to unfold two or three weeks ahead of its fellows. Still more time was gained by injecting water into the buds. Not content with water, a physician has tried injections of water with 10 per cent. of alcohol. By this means he succeeded in gaining ten days in the budding of oak twigs.

Doubly an Agnostic.

Professor Mahaffy was once examining a man who had put himself down as an "agnostic" on entering college. He was having a hard time at Mahaffy's hands over some "crux" passages in a Greek book. "I believe, thir," sai' Mahaffy, "that you are—aw—are a agnothtic in religiouth matterth." The man feebly acquiesced. "Well, then, thir," said the professor, "I can quite athure you that you are an agnothtic in Greek ath well."

For Cutting One's Own Hair.

A foreign inventor has patented a device which, it is said, will enable any man to cut his own hair. It consists of a comb attachment that may be placed upon any razor. The hair is then combed with the razor, which cuts off the ends of the hair precisely the right length.

A Simple Way to Make Soft Soap

While its use is not general, some housewives prefer for certain cleansing purposes to use soft soap, or soap in paste form, believing it more convenient or economical than ordinary soap.

Gold Dust washing powder can be converted into the finest soft soap by dissolving it in hot water in the proportion of 4 heaping tablespoons of the powder to each quart of hot water. When cool, it is ready for use.

Gold Dust works more thoroughly and quickly than soap or other cleansers.

CHILD DEVELOPED BY ENVIRONMENT

Prof. O'Shea Urges Parents and Teachers to Co-operate for Good of Children

"TEENS" IS VITAL PERIOD

Influence on Child's Future Greater in Adolescent Age than Any Other Time

The largest meeting the Parents' and Teachers' association of this city of this city ever held heard Prof. M. V. O'Shea talk last night in the high school auditorium on the part they were playing in developing manhood and womanhood in our boys and girls today. His lecture was a comparison of the boy's and girl's development in the vital age of life, that of the "teens." Prof. O'Shea spoke of the need of a body like last night's gathering to accomplish this important and necessary work. He maintained that the parents in the home alone cannot do it; that the teacher cannot do it alone, but that both working together can place a boy or girl in an environment,in a crowd of other boys and girls which will tend to develop them mentally, morally, physically and socially.

The first phase of a child's activities taken up by Prof. O'Shea was that of attending the theater. It is not right, he claims, to allow a child in the adolescent state of development to become violently excited by what they with their still narrow minds, get of the play and the actors' life. He made no comment on adults attending the theater.

Luxuries Deteriorate

Luxurious living tends to deteriorate the wholesome development of child, Prof. O'Shea says, and if a parent wishes to secure perfect manhood and womanhood in their children they must take away all the superfluous luxury and money spending habit and give them only what is necessary. If possible make them earn it and they will appreciate their privileges more than they otherwise could.

A great amount of harm to the growing boy is the smoking habit, says Prof. O'Shea. He says not many boys smoke wilfully but do so by imitation. Getting in contact with other boys who smoke will soon lead the normal boy to take up this habit which will harm his growing body, his developing brain and degrade his social surroundings.

The child in the teens is in a very pathetic growth in his life for at this time his bones have developed and the muscles have not developed enough to control them making him very awkward and bashful. It is a tragedy in a child's life to be brought before company to "show him off" in this period of his life. Prof. O'Shea showed by charts how the girl develops sooner than the boy therefore making such a contrast in boy and girl life around the ages of 14 and 16 years.

Old System Out of Date

The old system of teaching which is still prevalent in the minds of our parents of today has much to do with child development. If the teachers of today teach the way the teachers of fifty years ago taught we would not have made any advance with the rest of the world along this line and this subject of teaching is an important one. The teacher must today understand the child's moods and be able to know how to deal with them. So the teachers and parents getting together makes it possible to cope with this problem properly.

The boy and girl loves during the grammar and high school career is also an important period, says Prof. O'Shea. If a boy and girl be continually in each others presence and do not have other companions that they may not become narrow minded and hopelessly infatuated with each other, it is the greatest tragedy that may beset their lives. The teacher and the parent must become the boy's and the girl's friend that no such misfortune may come about. Thus the Parents' and Teachers' association of this city and the other cities are co-operating to help develop our boys and girls mentally, physically, spiritually, morally and socially.

An interesting exhibition of manual training, domestic economy and art, and commercial work was displayed in the hall of the building for the parents' inspection.

"Bugs" Raymond (at the left), Kirby and Jack O'Connor.

The United States league, which had its birth this season, is giving some good exhibitions of baseball. Further, practically every team in the league is now making money. Among the players are a few who are not new to big league baseball. "Bugs" Raymond, formerly with the New York Giants, is now with the Chicago U. S. team. Jack O'Connor, formerly of the St. Louis Browns, is managing the Cleveland aggregation. A young U. S. player who has never traveled with the big leagues is Kirby, who plays in the Cleveland infield. He is certainly making good. He is said to be one of the best new men that has appeared in league baseball this season.

In Full Costume.

An artist was discribing a revue that he had seen in Paris.

"It was a very decollete revue," said he. "In certain parts of it I was forcibly reminded of the story of the Parisian chorus girl. This girl had been put through her paces, and finally engaged. 'And now,' she said, 'about my costume. What costume shall I wear?'

"'Let me see your tongue,' said the manager. 'Ah, it's coated. That will do.'"—Watch Dog.

Chicago Grain Letter

CHICAGO, May 22.—Prices in the grain market stiffened today and showed considerable strength. Cabled reports from Liverpool told of higher prices in the wheat market there, and reports of crop conditions in this country, helped the bull side in both July and September wheat which made substantial gains during the day.

Corn prices moved upward along with wheat, and the oats market was strong with prices higher in spite of bearish crop reports.

Provisions were higher.

NEGRO PLEADED NOT GUILTY

Natural Kindheartedness and Law of Gravitation Responsible for Apparent Theft of Chicken.

A negro was once haled into court in a Missisippi town for the theft of a fancy chicken. The chicken in question was in the bag in which it was found at the time of the arrest. When asked if he had anything to say in his own defense, the negro replied:

"O' co'se I is. I ain't stole dat chicken. My natchel kineheartedness an' de law ob grabbertation done put de chicken in de bag."

A further explanation being deemed necessary by the magistrate, the prisoner stated:

"I wus a-goin' through de lumber yard an' I picked up er plank. It didn't have no 'tickler value an' de white folks ain't er goin' ter grudge de pore nigger de plank. I ain't took no notice dat de plank wus warm. I had er bag under my arm, too. I disremembers whut I had de bag fur, but I wus er goin' along an' I seed dat chicken er settin' on dat limb what had ice all over it, an' de chicken sho' wus cole. Den my natchel kineheartedness, whut I done tole you about, got de bes' uv me an' I done put de plank 'longside uv de chicken. An' he sho' wus grateful fur dat warm plank to stan' on. Now I never noticed dat de en' uv de plank whut was on de groun' wus in de bag, an' when de chicken step on dat plank de law uv grabbertation done kotch holt er him an' throwed him in de bag. Well, boss, hit semed like de han' uv Providence done put de chicken in de bag, an' I jus' took him an' walked off wid him, but boss, I ain't never stole dat chicken. 'Deed I never did."

OUTCASTS BEATEN IN FIRST GAME

Brackett Pitches a Great Game and La Crosse Is Beaten by Pirates by Score of 5 to 0

THE LOCALS GET ONLY 4 HITS

Weigand Makes Two Doubles; Brackett Gets Two Triples and Scores Three Runs

Brackett held the Outcasts to four widely scattered hits yesterday while his teammates counted five times and as a result La Crosse was handed a coat of calcimine by Winona yesterday afternoon at League park by the score of 5 to 0. A crowd which filled the stands of the park saw the Pirates apply the brush to Bond's men in the opening game of the Minny league season here, but in spite of the fact that their home fans were with them the Outcasts could do nothing with Brackett.

The visiting hurler pitched a grand game and the four hits he allowed were scattered over as many rounds. His control was perfect and he hit nobody and issued no passes. Charley Weigand seemed to be the only member of the local team who could find him, the local boy solving his delivery for two pretty two baggers but his teammates were unable to put him across the pan. Five of the Outcasts were set down on strikes by Brackett. He was also prominent offensively, getting two three baggers and scoring three runs.

Nally pitched a creditable game but he was wild at times and this, combined with opportune hitting and some loose support, allowed Winona to score. Horan's error in the ninth let in one tally while Nally's own wild heave in the first allowed Brackett to count.

A parade in which the players of both teams marched and in which league officials as well as the officers of both clubs participated was held previous to the game and this aroused considerable interest in the combat. A band was in attendance marching in the parade and furnishing music before the parade as well as at the grounds. Previous to the opening of the game and during the game the band played several selections.

Nally was sent to the hill by Manager Bond to win the first home game of the season and he was opposed by Brackett. A brief spell of wildness got Nally in the hole at the outset as he passed Brackett, the first man to face him. A wild pitch advanced the runner to second and then Nally handed out free transportation to Ginther. Curtis slammed a grounder to the pitcher who picked it up all right but he hurled the sphere for over Van Horn's head, allowing Brackett to cross the pan while Ginther took third and the runner reached second. It began to look as if Winona was going to get a bunch of runs for nobody was out, but things looked a little better when Calhoon hit one to Nally and this time he got his man at first without allowing anybody to register. McKee slammed ont out to Meinert, who made a swell catch of the fly. Ginther tried to score from third on the catch but Dutch made a swell heave home and the runner stopped when he saw how true the peg was going. Nally intercepted the heave and relayed it to Horan, who got Ginther before he could get back, thus completing the only double play of the day.

When Meinert opened the local half of the first with a grounder down the third base line which went safe, it looked as if the Outcasts might even up the count. However, Brackett caught Dutch off first and after an exciting chase in which Brackett, Curtis, Dayton and Hillicker took part, Meinert was run to death by Brackett. Bond and Van Horn were out on easy chances, retiring the side.

After the Pirates had been disposed of in order in the second, the Outcasts got a man as far as third, the only local player to get to that corner all day. Du Chien was out, Dayton to Curtis, but Charley Weigand knocked out a pretty one into left field for two sacks. Weigand went to third when McKee threw out Horan, but he was left anchored there when Tomer's best offering was a fly to Hillicker. This spoiled the Outcasts' best chance for scoring.

Horan's error and a hit batsman put two Pirates on with nobody gone in the third but Ginther was out when Nally caught his popup and Curtis forced Leslie Hillicker at third. Horan took care of Calhoon's grounder, closing the round. A strikeout, a fly and a bounder disposed of three Outcasts in a row.

The Pirates made the count 2 to 0 in the fourth. Horan nabbed McKee's fierce liner but Nally got himself into trouble when he soaked Dayton in the ribs with one of his curves. Lewis Hillicker shot a hot grounder towards left field but Horan made a pretty stop and got his man at first, McKee taking second. He tallied from there on Chapman's one cushion shot to center.

The next two rounds were uneventful for both teams except for Manager Curtis' smash for three corners to right with two dead in the fifth. The Pirates blew this chance to tally when Calhoon soaked one to Weigand and was retired at first.

Winona bombarded Nally in earnest in the seventh, four swats netting them two runs. Chapman was an easy out, Nally to Van Horn, but Leslie Hillicker started the fireworks by singling to right. Brackett knocked a hot one past Du Chien to the right field fence for three bases, driving in Hillicker. Ginther kept it up by singling through Nally, registering Brackett. He stole second and Curtis was passed after which Calhoon was set down on strikes. McKee sent a single to center and when Ginther tried to count on the slam from second Meinert threw to Brown in time to nail the runner. The domestic half of the round was uneventful except for Weigand's second two bagger but he was lefe when Horan was put out.

Neither team got a man on base in the eighth but in the ninth Winona scored its final tally which might not have counted had it not been for Horan's error. Breckett shot a hot one to right field for his second three base smash with ont out. Ginther sent a grounder to Horan, who let it get past him and Brackett tallied. Nally got Curtis at first and Calhoon fanned. The Outcasts were set down in order in their last time at bat and the game was over.

Rochester, 7; Eau Claire, 6

EAU CLAIRE, Wis., May 22.—Rochester scored five times in the fifth inning when they knocked Grimes off the slab and they won the opening game of the season here from Eau Claire by the score of 7 to 6. Tower succeeded Grimes in the fifth and kept the hits well scattered for the remainder of the game. The locals had one big round, the sixth, when four Eau Claire men crossed the pan, causing Bzoskie to relieve Armontrout.

KILBANE SUFFERS IN WALSH DRAW

BOSTON, Mass., May 22.—There was a wide difference in expressions of opinion today among sporting writers and fight fans regarding the draw decision of Referee Maffat Flaherty in the Johnny Kilbane-Jimmy Walsh ten round bout given last night under the auspices of the Pilgrim Athletic club at the Arena. One sporting writer even made the flat charge that the fighters probably arranged before the bout that they would fight to a draw. Kilbane today carries a terribly battered eye, while Walsh was practically unmarked. Mayor Fitzgerald of Boston and a score of legislators witnessed the match. Both men were fast, but showed little punch.

JOHNSON TO OPEN ACTIVE TRAINING

CHICAGO, May 22.—To defend his title of heavyweight champion of the world against Jim Flynn, Jack Johnson will leave here Saturday for Las Vegas, N. M., where he will begin training in earnest for the big mill on July 4. Johnson's quarters will be in a suburb of Las Vegas, on the edge of a small lake and reached by the best auto road of that section of the country. Marty Cutler, Battling Burns and Ray Burns will be taken along as sparring partners and several husky colored fighters are expected to join Johnson in his camp shortly after his arrival.

The Cubs made a show of Phelps by pilfering six bases.

"A DRAW" SAYS HUGH

JENNINGS SAYS NO ONE HAS WON OUT IN PLAYERS' STRIKE AGAINST SLAVERY

WASHINGTON, May 22.—Neiher side has won—but the outcome will be better playing conditions for baseball teams hereafter, was the way Hughey Jennings, the Tigers' snappy leader, today summed up the strike of his team.

"To me the recent situation looks like more of a truce under arms than anything else," Jennings declared. "I frowned on the telegram the boys sent to Ban Johnson, because I failed to see how that helped in bringing Cobb back into the game. And it is not going to bring him back to us any sooner, either.

"Still, in the light of present feeling of fans throughout the country, who seem to be with Cobb, I hardly think his suspension will last much longer.

"The boys have an unanimous idea they have won—at any rate they will have better protection in the future, particularly in New York and Philadelphia."

The Detroit team—all here with the exception of Cobb—were anxious to get back to their work and confident of cleaning up with Washington this afternoon.
